PARIS MUSEUM AND HISTORICAL SOCIETY

J.T.

As I was not sure, it may be long or short
the latter is the most likely.

- There are therefore three particular kinds of
length, pitch, & force. So also there are
three important parts of music.
- 1st Pitch, being the length of the length of notes.
 - 2^d Melodical, being the pitch of notes.
 - 3^d Dynamics, being the power of notes.

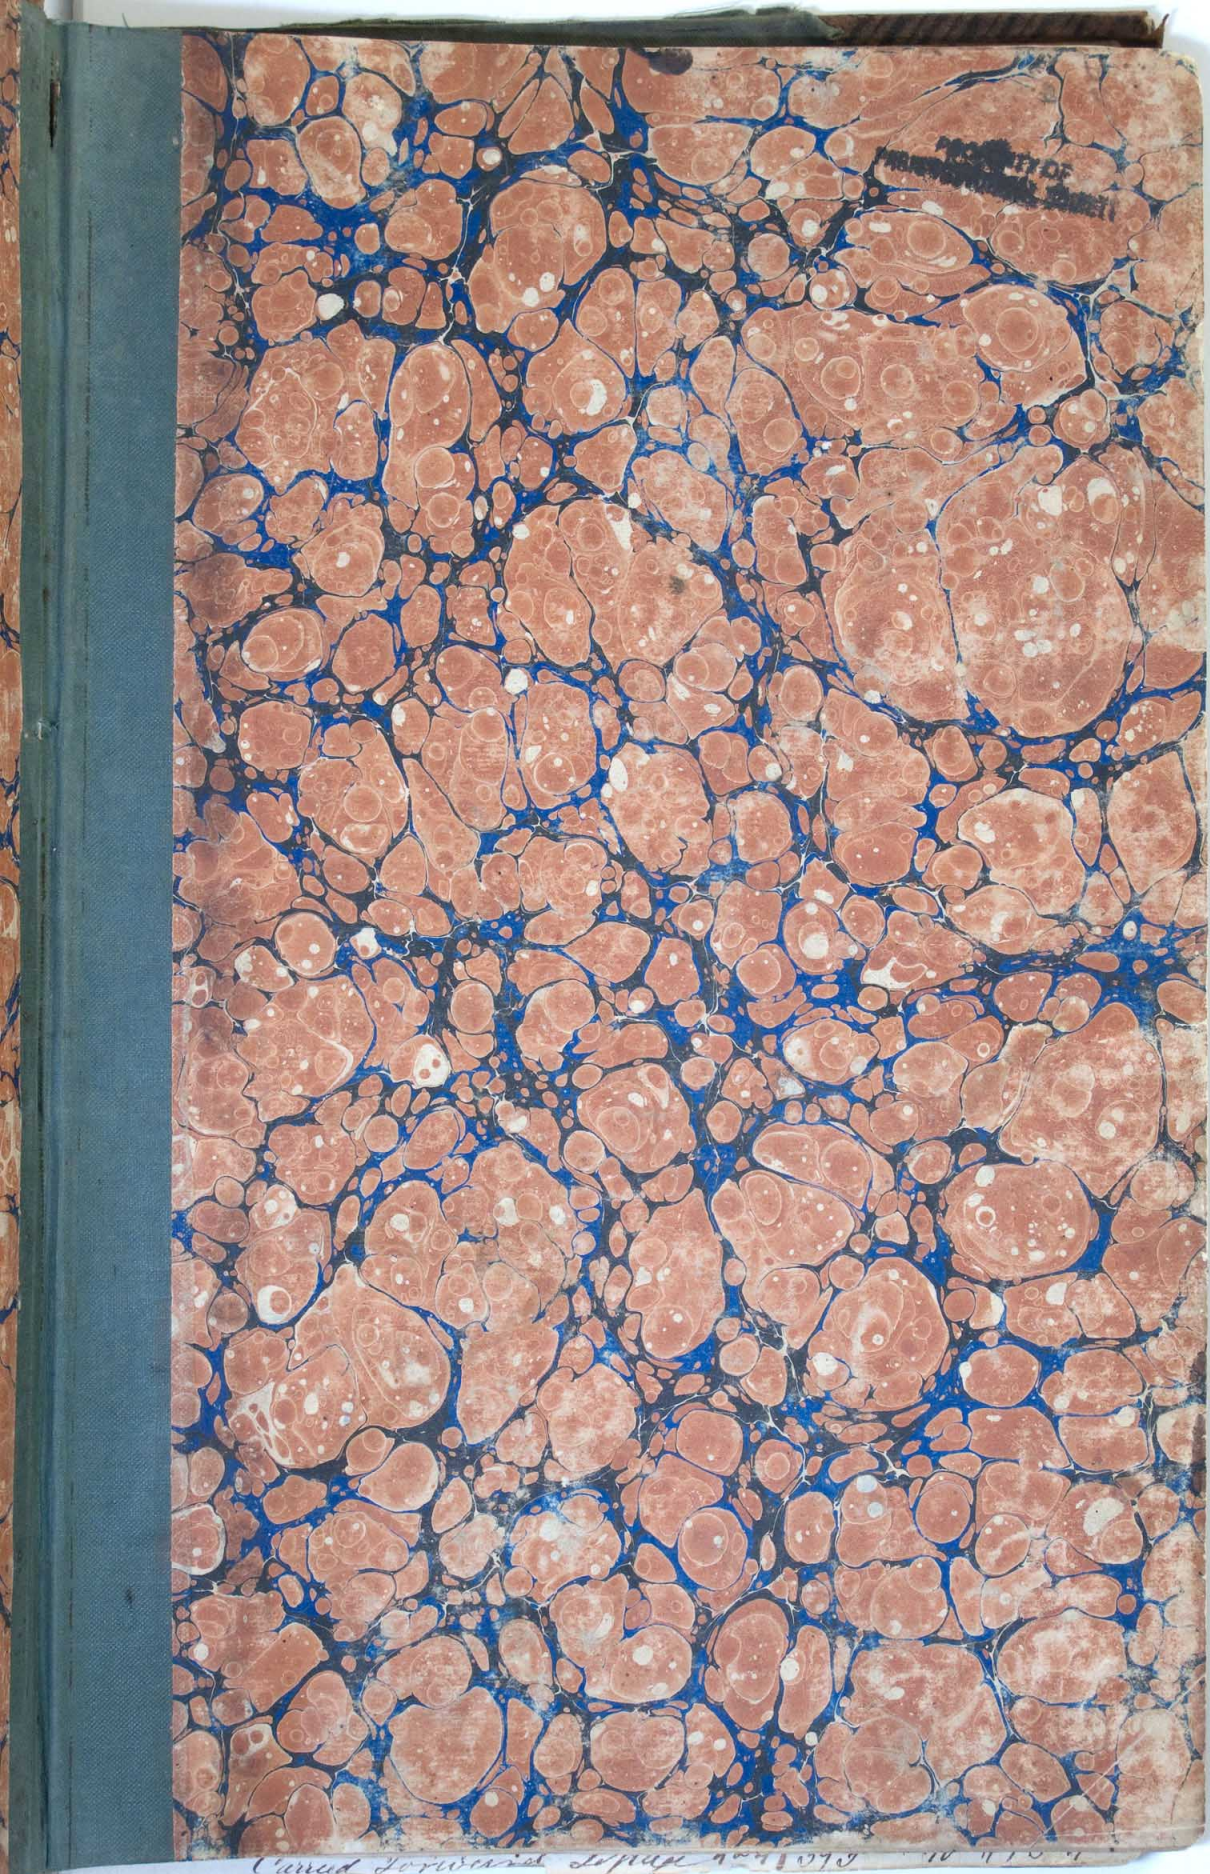

As these three are written upon the staff as signs
of musical sounds, showing their length and order.

Everything of something rather than
something of every thing.

- These things being important in music, notes, rests,
etc.
