### Design Peerless Car to Meet Exacting Demands

"Few people realize how acutely conscious the automobile industry is of the increasingly difficult traffic conditions of today," says Fred Slack, chief engineer of the Peerless Motor Car corporation. "The demands on present day cars would have been considered impossible a few years ago."

The Peerless Motor Car corporation is now designing a new car to meet these demands. It is a car that will be able to handle the most difficult traffic conditions.

The new car will be a six cylinder model. It will be a car that will be able to handle the most difficult traffic conditions. It will be a car that will be able to handle the most difficult traffic conditions.
