A splendid new building of Spanish Renaissance design has been constructed to care for every requirement of the present and those of the future. In the beautifully appointed display room, with a floor space of 2800 square feet, there is ample opportunity for the effective display of every model of the Chrysler line. Here you may view and inspect these remarkably fine motor cars next Saturday and every day and evening thereafter.

At the rear is a huge service department, with more than 10,000 square feet of floor space, where 40 cars can be accommodated at one time. Every modern mechanical aid for prompt and thorough servicing of cars is to be found here.

In the creation of these new facilities, to give the utmost benefit to Chrysler owners has been always the uppermost thought. To own and drive a Chrysler now becomes more than ever a matter of pride; of satisfaction; of good judgment, of good business!
