WARMER DAYS: HARDER PLAY

We'll keep the youngsters spic and span

NOW that warm, sunny days are returning, the little folks are spending more time at healthy outdoor play. And the mother that does her own washing sees the size of her job increase correspondingly.

For it seems to take an endless number of little frocks and b'ouses to keep the small members of the family looking neat and clean. Yet the mother who sends the laundering to us is not concerned in the least.

She knows we wash every single piece of apparel as carefully as she could desire. She knows they come back irreproachably clean. And experience tells her it's so much better and more economical than laundering at home!
