NEW BUICK COMPANY

Corporation Receives Charter and Establishes Sales Places in Evanston, Highland Park

A charter of incorporation has been granted by Louis L. Emmerson, secretary of state, to the North Shore Buick company, with a paid in capital of \$50,000.

The new firm which was originally founded by John T. FitzGibbons of 805 South St. John's avenue, Highland Park, six years ago, has established a record of growth among Buick sales agencies. Today it is one of the largest distributors of this make of car in the Chicago territory.

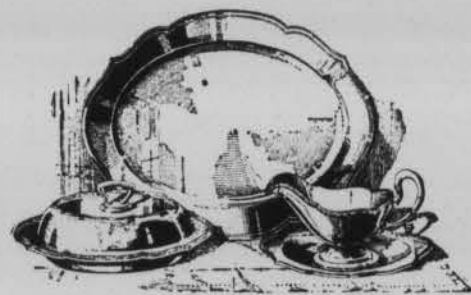

Mr. FitzGibbons is named as president of the new corporation and will also serve as general manager, dividing his time between Evanston and Highland Park, in both of which communities sales and service quarters are maintained.

Other incorporators are Leonard A. James, vice-president, formerly with the Evanston branch of the Cadillac Motor company, and Alfred C. Houser, secretary, for the last three years advertising manager of the Yellow Truck and Coach Manufacturing company. In 1921 Mr. Houser was connected with the then factory retail sales branch of the Buick Motor company in Evanston. He is well known in the automobile industry.

The Evanston sales rooms of the North Shore Buick company, located at 1030 Davis street, are in charge of Mr. James as retail sales manager. He also supervises the service station at 1572 Maple avenue, Evanston.

A new building for sales and service has just recently been completed in Highland Park. It constitutes one of the most pretentious units of the new "motor row" facing the North Western tracks. This department of the business will be in charge of Mr. Houser as resident manager.
