A Long Distance Call Is a Simple Matter

PERHAPS there are still a few persons who believe that making a long distance call is a long-drawn-out, complicated and expensive procedure. Such is by no means the case. It is very easy to make any kind of a long distance call.

To make a station-to-station call, you merely call "long distance" and when the operator answers you tell her the number of the distant telephone. If you do not know the number, give the name and address under which the telephone is listed. The charge begins when the called telephone answers.

To make a person-to-person call, you tell the long distance operator the name and telephone number or address of the person to whom you wish to talk. The charge begins when communication is established with that person.

If you wish to know the rates or any other information, the long distance operator will help you.

"Earnings must be sufficient to assure the best possible telephone service at all times and to assure the continued financial integrity of the business. . . . Earnings in excess of these requirements must either be spent for the enlargement and improvement of the service furnished or the rates charged for the service must be reduced."

told and illustrated with unusual charm by the joint authors.

"Little Tonino" . . . Hill and Maxwell
This story of a little Provencal boy and his sister Nanou, and how they earned money to feed Tintourlet, the pet donkey, is one of unusual charm. The details of the old-world life of Provence give the book an absorbing interest. The illustrations in black and white add much to the story.

"Treasure of Carcassonne" . . . Robida
One of the most delightful books of the year, concerning the search for a hidden treasure. Realism, nonsense, and humor are combined in a fascinating way.

"Wonder Tales From Pirate Seas" . . . Olcott
A collection of fanciful East Indian folk tales, translated from the Dutch.

"Wonder Tales From Wagner" . . . Chapin
A charming collection of stories from five of Wagner's famous operas—the Flying Dutchman, Tannhauser, Lohengrin, Tristram and Isolde, and the Mastersinger of Nuremberg.

"Wonderful Locomotive" . . . Meigs
The story of a little boy who rode on a wonderful old locomotive, from his New England home to Boston, New York and San Francisco. The descriptions of the country are vivid, and the pictures in black and white on every page are delightful. Fact and fancy are cleverly mingled, and the book is sure to please small boys who want "something about engines."
