Donate Dunes Painting to New Trier's Gallery

In recognition of the presentation of the cabinet scene from John Drinkwater's "Abraham Lincoln" at the 1929 Lincoln's birthday exercises for high schools of Chicago and suburbs, the Union League club, which sponsors the exercises each year, has presented to New Trier High school a sand dune painting by F. Darge. The painting has been hung in the main floor corridor opposite the school offices. M. E. Duckles, New Trier faculty member, played the part of Lincoln when the cabinet scene was presented, and members of Lincoln's cabinet were portrayed by seven New Trier boys — Kingsley Karnopp, Dorrance Nygaard, Carl Hall, Martin Cassell, William Gibson, John Betak, and John Atwood.

in the Conover

Housekeepers have found that the most efficient way to wash dishes is to wash them just once a day. You can store them away out of sight in the Conover—ready to wash them in the morning.

The Conover itself rolls into a corner out of the way when not in use. It is simple to operate, requires no new plumbing or sink attachment.

It washes, rinses and dries your dishes in less than half the time it takes you to do them by hand. An electrical appliance the entire family will appreciate!

The apartment size Conover for small apartment kitchenettes, rolls conveniently under the sink.

The Conover is an ornament to the smartest kitchen.
