

Peterson-Wendell Wedding Event of Thanksgiving Day

The marriage of Miss Esther Peterson, daughter of Mr. and Mrs. Otto Peterson of Evanston, and Joseph E. Wendell, son of Mr. and Mrs. Carl I. Wendell, 104 Sixteenth street, Wilmette, was solemnized on Thanksgiving day at the Swedish Mission church, Evanston, with the Rev. J. W. Carlson officiating. A reception for eighty-five guests at the Ridgeview hotel, Evanston, immediately followed the ceremony.

The bride was gowned in egg shell satin and wore an ivory colored tulle veil caught to a lace cap with orange blossoms. She held a large shower bouquet of white roses and white sweet peas. Miss Hildegard Larson of New York as maid of honor wore a gown of apricot satin made along princess lines. She wore slippers of the same shade and carried a large bouquet of yellow roses. The flower girl, little Lois Alm of Evanston, wore a deep pink frock of georgette crepe and carried a basket of rose petals. Donald Gustavson of Evanston, the ring bearer, was in a suit of white satin.

The best man for Mr. Wendell was David Milberg of Chicago. The ushers included A. Merritt Anderson of Evanston and Thomas Carlson of Chicago.

Mr. and Mrs. Wendell will return next week from their wedding journey and will make their home on Lunt avenue in Rogers Park.

Kenilworth Grid Victors Collect Spoils Saturday

Winning football teams of the sixth seventh and eighth grades at the Joseph Sears school in Kenilworth will be guest of the losers at a party to be held in the Kenilworth Memorial gymnasium this Saturday night beginning at 7 o'clock. About sixty boys are expected to attend the affair, which will be entirely informal. The outstanding feature of the evening's program will be the awarding of "K's" to members of Kenilworth's midget and lightweight football teams which represented the school in the North Shore Grammar School Football league this year.

Supt. Harper Presides at Education Sessions

Supt. J. R. Harper of the Wilmette Public schools attended a meeting of the executive committee of the Northern Illinois Conference on Supervision at DeKalb last week. This organization is composed of superintendents and principals in the northern part of Illinois. Mr. Harper is the president this year. Plans for the conference's annual spring meeting were discussed by the executive committee. It was decided to hold the meeting the first Friday and Saturday in May.

TO GIVE LUNCHEON

Mrs. Guy F. Wetzel, 116 Fifth street, will be hostess to several of her friends at a bridge luncheon Thursday, December 12, at the Oak Crest in Evanston.

Mr. and Mrs. Walter I. Beam, 411 Sheridan road, had as their guests over the Thanksgiving holidays, the latter's parents, Mr. and Mrs. J. B. Driver of Lima, Ohio, and Mrs. Beam's brother-in-law and sister, Mr. and Mrs. Harold Smith, of Lima, Ohio.

Mrs. Albert H. Ullrich was hostess to her Evanston Music Study club Monday afternoon of this week at her home, 925 Lake avenue.

Mr. and Mrs. Roy O. Walker, 504 Meadow road, Winnetka entertained nine guests on Thanksgiving day at the Shawnee Country club.

Katherine Hedglin Will Present Pupils' Recital

Miss Katherine Hedglin of the Columbia School of Music announces a recital to be given by her Wilmette and Winnetka pupils Saturday afternoon, December 14, at 2:30 o'clock. The program will be presented in the Wilmette Woman's club building.

Pupils who will participate in the recital are Elsie Jane von der Lippen, Mary Ellen Dailey, Shirley Pitts, Martha Leach, Bobby Mann, Lorraine Beecher, Isabel Mathieson, Suzanne Green, Rosemary Klein, Bill Lersch,

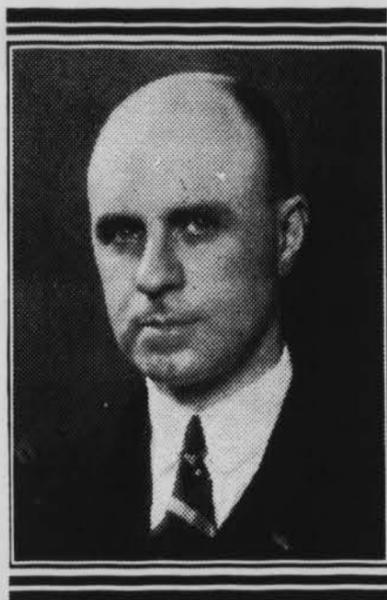

Jean Gordon, Jack Lersch, Betty McNulty, Banda Watts, Ella Menzen, Jane Strom, Dexter Sharp, Marjorie Green, Regina Fontham, Margaret Stephens, Mary Louise Schaeffer, Jeanette Robertson, Wilma Menzen, Mary Janet Lersch, Eleanor Beecher, Frieda Salmen, Julia Lineberger, Maty Jane Farley, Peggy Anderson, Janet Mathieson, William Roling, Alice Leland, and Evelyn Strom.

Mrs. Wharton Clay, 430 Sheridan road, Kenilworth will be hostess to members of her Reading club at luncheon today at her home.

PASS BURNER ORDINANCE
A new ordinance was passed by the Kenilworth Village board Monday night regulating the installation of oil burners to conform with the latest recommendations of the National Board of Fire Underwriters.

E. H. SCOTT, the designer of
World's Record Radio Receivers

Radio's march of progress has been rapid. So rapid, in fact, that unless one thinks twice, he finds his receiver out of step with the times, shortly after buying it. But there is a way that the radio investment can be protected—and those

In all truth—Scott Custom-Built Radio, by virtue of being custom-built and because of the unfettered, advanced engineering it symbolizes, is the radio of tomorrow—and the one radio you can buy without fear of the future. To house this jewel of advanced radio engineering you have the

who take their radio enjoyment seriously have followed this "way" and have derived pleasure and satisfaction therefrom, far in excess of the slightly higher first cost of Scott Custom-Built Receivers.

Scott Custom-Built Radio has always been several years ahead of its day. Evidence of this is the fact that receivers custom-built by Scott three years ago stand ready to meet today's best "factory-built" receivers in any kind of comparative tests for selectivity, power, and tone. If history repeats itself—and from all engineering data at hand, indications are that it will—today's Scott Custom-Built Radio will be the superior of the industry's best offerings three years hence.

E. H. Scott was the first to successfully utilize two stages of tuned intermediate frequency amplification in a superheterodyne receiver. By so doing, and by combining other features of advanced engineering, he earned for the first Scott Custom-Built Receiver the title of "Scott World's Record Radio." 117 programs from 19 stations—all 6000 to 8000 miles distant—were logged and verified during a 13-week test period. At that time, the rest of the industry was contenting itself with consistent 500 to 1000 mile reception.

Scott was one of the pioneers of screen-grid radio, and was the first to supply a screen-grid receiver which actually took practical advantage of the screen-grid tube. Scott Custom-Built Screen-Grid Radio now has a background of two years of success—while the rest of the industry is just making its screen-grid debut this year.

Scott was the first to supply a real international receiver. The new Scott models, in conjunction with the instantly-attached short wave converter, tune from 14 to 550 meters—thereby bringing the music of both hemispheres to the drawing rooms of Scott owners.

choice of 22 custom-built consoles. Come in—hear Scott Custom-Built Radio—tune it—see it—and you will quickly understand why no one has ever challenged the records of performance Scott Receivers hold. Prices upwards from \$215. Home demonstrations can be arranged—or our illustrated brochure will be mailed you on request.
