VOTERS REJECT WATER PROPOSAL

\$700,000 Bond Issue for Municipal Water Plant Loses, 3.187 to 1.729

Wilmette voters on Tuesday of this week decided to reject the proposal of the Wilmette Village board to issue bonds to the amount of \$700,000 to provide for the erection of a municipal water pumping station and filtration plant. The vote was 3,187 to 1,729 against the proposition.

The proposed bond issue was presented to the voters of the Village by the Village board at the suggestion of engineers who have been making a study of Wilmette's water problem. The shortage of water last summer was one of the reasons why the Village trustees decided that prompt action would have to be taken to alleviate the situation.

As a result of the vote on Tuesday the Village board is faced with the problem of obtaining, in some way, more water than is now being supplied to Wilmette by the city of Evanston.

Every precinct in the Village voted against the water works bond issue proposal. It is felt, however, that the Award Contracts for vote was not so much against the proposal itself as against the expenditure of \$700,000 at this time.

New Trier township, for the first time in history, went overwhelmingly Democratic and Wet at the general election held Tuesday of this week.
