

SAVE WITH SAFETY

## Do You Know—

THERE'S a man in WILMETTE who believes THAT epidemics are CAUSED by too much PUBLICITY—people talk ABOUT the disease, the NEWSPAPERS print a LOT about it, and every-BODY begins to think HE'S going to have it—A condition of the mind, IN other words,—and NOW that the Grippe SEASON is approaching WE hope all you WILMETTE folks will THINK about something ELSE and make up your MINDS that you're not GOING to have it. BUT—

IF you do begin to ACHE, and your eyes BLUR, and your DISPOSITION gets ROTTEN, and your HEAD throbs, just REMEMBER we have a LOT of soothing home REMEDIES that will help YOUR Doctor get RESULTS and make you MUCH more COMFORTABLE.

It takes one kind of an education to prescribe remedies, and it takes another kind to fill the prescription. The doctor's is the former — ours is the latter.

Plan Sight-Saving  
Classes on Shore

Miss Myrtle Chalstrom, registered nurse and representative of the Illinois Society for the Prevention of Blindness, reported to the Wilmette Health Center this week on a survey she is conducting in north shore towns which takes into consideration the lighting systems in public and parochial schools and a check of children to determine pupils with defective vision.

Miss Chalstrom announced a plan to establish two sight-saving classes on the north shore, one to be located in Evanston and the other in one of the other north shore towns, the exact location to be determined later.

These classes will be state subsidized to the extent of \$250 per year per child, covering cost of special equipment, ideal lighting systems and reprinting of all regular textbooks into 24-point type.

Miss Chalstrom stated that she had already recommended alterations in lighting systems in some north shore schools with the result that school officials have agreed to effect such changes.
