Mr. and Mrs. John W. Cullen, 1226 Ashland avenue, returned last week Friday from Winter Park, Fla.

**C. of C. to Act on Eight Membership Applications**

B. T. Clark, secretary of the Wilmette Chamber of Commerce, stated this week that eight new applications for regular and professional membership in the Chamber will be acted upon at the next regular meeting of that organization. The Chamber of Commerce now has a total of 194 regular and professional members and sixty civic members. The civic members are those whose business is in the city, but who, nevertheless, are interested in the civic welfare of the village.

**Wilmette Teachers Will Attend County Institute**

Wilmette Public school teachers will attend a Cook county teachers' institute Saturday morning, March 21, in Fullerton hall at the Art institute. Several noted speakers are on the program. Teachers from all parts of Cook county will attend the meeting.

**HEALTH CENTER NEWS**

A message to Wilmette parents:

Do you know that your children can be protected from diphtheria? A safe and simple method of prevention has been developed by medical science. We strongly urge this protection because diphtheria is one of the most fatal diseases of childhood. It kills thousands of children each year. It is most dangerous to very young children, particularly those from six months to five years of age. Ask your physician or your health or school department to protect your children now, and enjoy a permanent satisfaction from this safeguard.

**Wilmette Girl Semi-Finalist in Spelling Bee**

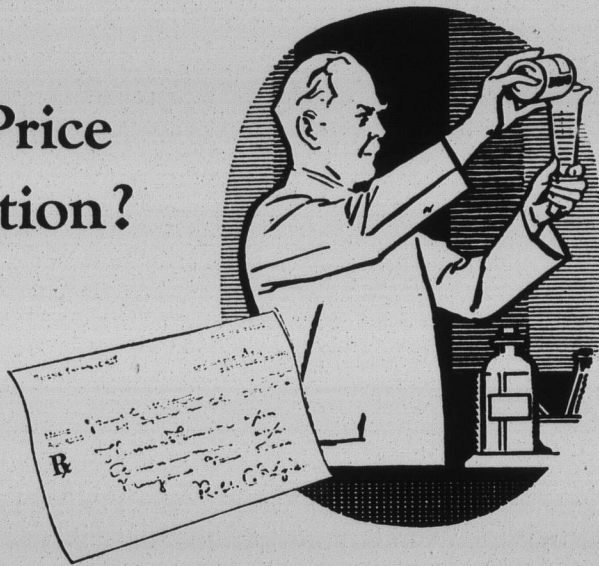

Frances Schmitz, 13, of 1634 Walnut avenue, will be one of a group of contestants tomorrow evening in the first of two semi-final events in the Cook county championship spelling-bee begin sponsored by the Chicago Daily Times and WBBM radio station. The entrants will be on the air from 8:30 to 9:30 o'clock. Frances, who is in the eighth grade at St. Joseph's school, was one of a group of 28 pupils of eight public and parochial schools who competed on January 30, in one of numerous preliminaries held in connection with the contest. She and a Chicago entrant remained after more than an hour of grueling competition.

Twenty-six pupils will engage in tomorrow's affair. Spelling will be continued until all but five are eliminated. The second of the semi-finals will be held next Saturday when five more finalists will be determined. The finals on April 4 will find ten youngsters eligible for the championship.

More than 40,000 pupils are represented in the 157 public and parochial schools originally entered in the contest. The winner receives a trip to Washington in company with a parent or guardian, all expenses paid. Others of the numerous prizes include four trips to various sections of the country and season tickets to the Civic opera.

Sr. M. Modesta, principal of St. Joseph's school, is Frances' teacher. Dorothy Borre, of the seventh grade, was also entered in the spelling-bee but failed to qualify.

Mrs. E. J. Hoffman, 1635 Lake avenue, entertained a group of friends and relatives from Glen View at luncheon and bridge last Monday afternoon at her home.

**What Price Prescription?**

An investigator who had visited 3500 drug stores was present when a druggist was being berated for charging 85 cents for a prescription which contained an expensive drug and which took 40 minutes and extreme care to compound. His gross profit was 35 cents. The same day the druggist paid a glazier \$1.25 for putting in a pane of glass. Cost of glass, 30 cents; time for putting it in, 20 minutes.

If people were aware of the vigilance and skill exercised by the pharmacist in compounding prescrip-

tions they would hesitate to question the price of a prescription. The druggist must spend years in college and in training in order to learn how to fill prescriptions. And to be ready to fill them requires a considerable investment.

For many years Physicians and Pharmacists have used the products of Merck's laboratories because they know they are reliable.
