

## Oppose Placing Booster Pump in Residence Area

A petition to the Wilmette Village board protesting against the proposal to erect a booster pumping station at Prairie avenue and Isabella street in accordance with the plans of the Village to obtain a larger water supply from the city of Evanston was read at the regular meeting of the board Tuesday night.

This petition, bearing the signature of twenty-three residents living on Isabella street, Prairie avenue and Wood court, read as follows:

"We, the undersigned property owners and citizens of Wilmette do hereby protest against, and object to, the construction of a booster pump building to be located in the parkway in Prairie avenue adjacent to Isabella street and demand a hearing on this objection."

In connection with this petition Village Clerk Lea J. Orr read a lengthy communication from Ralph C. Wessel, 216 Wood court, asking that a public hearing be held on the matter of erecting the proposed booster pumping station before final action is taken.

Mr. Wessel stated that since the section in which the Village board proposes to erect the station is residential it is entitled to every consideration in the matter of protection. He suggested that some arrangement be made whereby the station might be placed in such a position as to be hidden by shrubs and trees.

## Teatro del Lago Has Pleasing Art Exhibit

The spacious foyer of the Teatro del Lago is housing an exhibit of fifty-seven oil paintings by members of the Palette and Chisel club of Chicago. Nearly forty artists are represented by these pictures which will be on display at the Teatro del Lago until Friday, March 27.

Patrons of the theater enjoy strolling before these pictures which are shown to advantage in the mellow light of the foyer. A pleasing arrangement of the exhibit also enhances its appeal to the many persons who see the paintings.

Refreshing landscapes, with their golden shades, rich browns and restful greens; entrancing studies of clouds that change the mood of the observer in the manner of beautiful and varied music; trees whose leaves almost whisper from the canvas; a shapely boat lying at ease on the calm waters of a quiet harbor; compelling character studies of human subjects—all these glimpses of life and nature are afforded by the exhibit.

S. C. Meyers, manager of the Teatro del Lago, states that he is glad the pictures are the source of so much interest and pleasure to the many patrons of this north shore amusement center.
