The Public Welfare Party of Wilmette Candidates

—are opposed to street widening.

—are absolutely against apartment buildings in Wilmette outside of the business district.

—insist that a majority vote govern the actions of the Village Trustees on every project that can affect the property of any citizen.

(We believe that there cannot be an honest objection to the referendum idea.)

—are against the plan Commission ordinance as it is now in force because property holders can be denied an effective voice in decisions that can materially affect the value of their property.

—are against annexing property with the idea of making it available for apartment buildings.

The Village of Wilmette was created as a village of homes and we believe the majority of us desire to so maintain it.

THE PLATFORM adopted is specific—it cannot be misunderstood, and its mandate will be carried out by the nominees when elected. It provides:

1. Have plan commission for study and recommendations, but adoption of its recommendations in whole or in part must be by majority of the people of the Village.
We believe that in the case of widening of a residential street, except in such rare cases where it is an absolute necessity for the welfare of the whole Village, that the owners of the property directly affected should first decide by a majority consent in each block whether they approve or disapprove of the widening of such street. Having approved by this method, the matter should then be decided by a vote of all the people of the Village.
2. Elevate or depress railway tracks to eliminate grade crossings.
3. Protect our Village business as well as the residents' and community interest.
4. Keep the Village expenses as low as is consistent with the proper care and progress of the Village.
5. Consider all matters from Village and not from outside interest.
6. No secret Board meetings of any kind.
7. No apartments.
