

The
FIRST NATIONAL BANK
of WILMETTE

- - - was founded upon a serious and sincere concept of service to a community destined by location and natural advantages to thrive and increase.

And, like the town which gave us our name, we have strode forward until, recently, there was attracted the active interest of a notable group of North Shore residents with acknowledged records of success in the fields of commerce and finance.

These men, now intimate participants in our management and banking operations, have added the sum of their ability and experience and the power of their tremendous allied resources in order that we may continue to serve adequately the present Wilmette and look forward confidently to the greater service of the Wilmette of the future.
