

Health Department Is Declaring War Against House Fly

Wilmette's health department has declared war on flies.

"Fight flies" is the battle slogan of a letter sent out for all local food stores by Dr. W. W. Hawkins, health commissioner of the Village of Wilmette.

A placard which accompanies the letter stresses three methods of fighting flies: (1) See that no garbage is spilled on the ground; (2) Keep all containers covered all the time; and (3) Use your fly spray often.

The following is the letter:
"To All Food Stores:

"Fly time is here. May we have your cooperation for a fly-less village this year? The house fly travels only a short distance, and if we destroy his breeding place our troubles are largely done away with.

"We offer these suggestions:

- "(1) Cover all waste and see that none is spilled or scattered on the ground. Your garbage is collected daily, which makes this easier.
- "(2) Sprinkle a small amount of chloride of lime in and about the garbage cans frequently.
- "(3) Get a good fly spray **now** and use it daily. One fly killed now is worth a thousand later.
- "(4) Have all screen doors in good repair and keep them closed.
- "(5) Hang the enclosed card where kitchen employees can see it.

Will you help keep down the fly population?"

Typical Five-Gaited Saddle Horse

We offer for sale high grade three- and five-gaited saddle horses which we have purchased, fresh and unspoiled, direct from the breeders in Kentucky, Missouri and Tennessee.

We finish our horses so they may be used with safety by novice riders, women and children. Every horse is guaranteed and may be purchased subject to trial, or will sell you a horse and teach you to ride it.
