#### I LOVE YOU, MOTHER

"I love you, mother," said Little John; Then, forgetting his work, his cap went on,

And he was off to the garden swing. Leaving his mother the wood to bring.

"I love you mother," said little Nell, "I love you better than tongue can tell." Then she teased and pouted half the day, Till mother rejoiced when she went to play.

"I love you mother," said little Fan, "Today I'll help you all I can." To the cradle then she did softly creep, And rocked the babe till it fell asleep

Then, stepping softly, she took the broom, And swept the floor and dusted the room.

Busy and happy all day was she, Helpful and cheerful as child could be

"I love you, mother," again they said— Three little children going to bed. How do you think the mother guessed Which of them really loved her best?

**She forgot  
about the spinach**

*—and found it six days later*

YOU know how it is. She put the left-over spinach away in the refrigerator, meaning to do something with it right away. Then she forgot about it. When she discovered it six days later in a covered dish—surprise! It helped solve the problem of what to serve for dinner that evening.

■ Stored away in an electric refrigerator, the spinach came out of its six-day retirement in tip-top condition. And promptly it was made into a delicious spinach loaf.\*

■ Electric refrigeration is a great convenience for homemakers because it keeps left-overs fresh and healthful for days and days. It practically eliminates food spoilage of all kinds—and pays for itself with the money it saves.

■ See the new models (both Frigidaire and General Electric) at your Public Service Store or your neighborhood dealer's. All may be purchased for only a small payment down—and the balance may be extended over 24 months.
