

High School News

By Jean Duncan-Clark

Many and varied are the haunts that have lured the members of the New Trier faculty this summer. The sections of the globe that will be travelled extend all the way from Alaska on the north, to China on the west, and Europe on the east.

Miss Armstrong has gone to spend her vacation at her home in New Hampshire. Miss Frances Bredin, Miss Alice Donham and Charles Varney, all of the French department, have left to learn more French, in France. Miss Bredin and Miss Donham will travel together and spend their time in Brittany and Normandy. Miss Virginia Robson, the school dietitian, has also gone to France.

"Duke" Childs of the Physical Education department has gone as usual to his camp at Owakone, Ontario, Canada.

Miss Dorothy Fitch of the Art department has traveled out to California to study at the University of California.

Miss Mary Helen Paul of the Latin department, and president of the Woman's Faculty club, has left for a summer's study at the Accademia Americana, Porta San Pancrazio, Rome, Italy.

Miss Elizabeth Packer, dean of girls at the school, will spend her vacation touring the northwest United States and Alaska.

Miss Anita Sentney of the French department has gone to the Orient, where she will stay at Shanghai and various other parts of China.

Miss Elizabeth Stanwood of the English department has followed her usual summer's program of going to her ranch at Hayden, Colo.

Robert Carpenter, also of the English department, has gone to a "wild and woolly" ranch in Idaho. John Kau is another ranch enthusiast, and is out at Yellowstone Park, Wyo. Miss Dorothy Walker has found her ranch in Arizona.

Mrs. John Hudson has selected a most interesting sounding course to pursue in the Oceanographic laboratories, at Friday Harbor, Wash.

Quite a few members of the faculty bid farewell to New Trier this summer, as they have taken up various new occupations elsewhere.

Miss Lillian Fogg of the English department will not be returning next fall, as she is to be married the end of this month. She expects to reside in Boston after her marriage.

Dr. Clarence Minnema, better known as "Doc," will not return in the fall. It is said that he intends to take up practicing medicine in connection with a government naval station.

Miss Agnes Biesemeier of the Physical Education department was married recently and has no intention of returning to teach next fall.

Another member of the Physical Education department, who will be married very soon, is Miss Helen Fraser, known to her friends and students as "Shorty."

Miss Ruth Lannen will be at the University of Chicago.

Miss Lillian Doing of the Administration department will be attending the University of Chicago next fall.

With so many vacancies, it is only natural to suppose that there will be some new teachers at the school next fall. The following are the names which are at present on the list as expected next fall:

Affiliated with the English department will be Miss Beulah Hall, of Grinnell, Kans.; Richard S. Peterson, DeKalb, Ill., formerly an instructor at the Harvard School for Boys in Chicago.

In the Mathematics department

there will be Ralph C. Routsong from Dayton, Ohio.

The Commerce department has added one more member to its staff—J. Raymond Smith of Elgin, Ill.

The Physical Education department has taken some changes also. The two new assistants in the clerical department will be Margaret Hubsch and Mrs. Marion Dennis Showley, both former New Trier students.

The History department will again have the pleasure of seeing Miss Emilyn Waltz, who is returning after a year's absence.

FRIGIDAIRE'S Utility Top is good-looking and useful too

The designers of Frigidaire believe that a cabinet intended for the home should combine beauty with utility.

That is why the top of your Frigidaire is smooth and flat, and made of Porcelain-on-steel to retain its lustre through a long lifetime of hard service. It is an ever handy place on which to set food that is being moved in or out of Frigidaire—dishes that simply must be placed somewhere during the preparation of a meal. Even

dishes just out of the oven can be set upon this porcelain surface without fear of the slightest damage.

But under its good-looking, useful top the Advanced Frigidaire embodies no less than 25 outstanding advantages that assure greater convenience, health and economy in your home.

Come and see for yourself why Frigidaire is the choice of so many thousands. And insist on seeing all twenty-five advantages!

Frigidaire
is finished in
Porcelain because
Porcelain is:

rust-proof
heat-proof
blister-proof
scratch-proof
dirt-proof
moisture-proof
wear-proof
odor-proof
time-proof

It is easy to keep
clean, everlastingly
beautiful, and never
needs refinishing.
