

## P. T. A. Groups Sponsor Evanston Lecture Series

Mrs. Byrd Arnold Smith, of 1307 Grant street, Evanston, will present a series of lectures beginning Friday evening, February 12, at Orrington school, Evanston. Members of the Wilmette Parent-Teacher associations, the North End Mothers' club (Evanston) and Hi-Y club (Evanston) are sponsoring the lectures to be conducted for five weeks every Friday evening at 8 o'clock.

Not only fathers and mothers but young men and young women have indicated their interest in the course, which deals with the development of a personality as it relates to the integrated family life, including the husband and wife and children and parent relationships.

Mrs. Smith carries on her clinical work at the Children's Memorial hospital.

Mrs. Charles Morrison, 930 Oakwood avenue, Wilmette, is in charge of the management for the Wilmette group.

The request for the course follows several similar courses conducted at the Beverly Hills Woman's club and in Chicago, it is explained.

Mrs. Paul Bradley, 624 Abbottsford road, Kenilworth is sailing on the Aquitania February 3, for a Mediterranean cruise. She is going with her parents, Mr. and Mrs. S. M. Bloss of Evanston. They will be away about five weeks.

## Bride

Photo by Liebling

Mr. and Mrs. Ellsworth E. Brunson of Glencoe announce the marriage of their daughter, Alice Culver Brunson, to John Valleau Rathbone, Jr., son of Mr. and Mrs. John Valleau Rathbone of Kenilworth, on Saturday, January 16.

## George Pettinger, Jr., Will Be Buried Friday

George Pettinger, Jr., son of Mr. and Mrs. George Pettinger, 1424 Wilmette avenue, died Monday night at St. Francis' hospital in Evanston of peritonitis. He had recently undergone an operation.

Mr. Pettinger was 25 years old. He was a golf professional and served at one time as assistant pro at the Sunset Ridge club. He formerly was associated with the Black and White Cab company in Winnetka.

Besides his parents he is survived by two brothers, Arthur and Earl, and a sister, Dorothy. The funeral services will be held tomorrow (Friday) morning at 10 o'clock at St. Francis Xavier church in Wilmette, with burial at St. Peter's cemetery in Niles Center.

Mr. and Mrs. Louis Roeser of Boston (Elizabeth Hannah of Kenilworth) and her baby are stopping at the Brevoort hotel in Chicago.

SPECIAL SUNDAY DINNER

\$1.25

Served in French Table D'Hôte  
or Main Dining Room  
12 M. to 8:30 P. M.

ORRINGTON AVENUE AT CHURCH STREET

## Magrik Health Builder Supplies All Minerals Essential to Strong, Healthy Bodies

*Lack of Minerals in Present  
Day Foods Cause "Min-  
eral Starvation" Followed  
by Disease*

Humanity owes much to biology. It has played an important part in promoting health, strength and vigor among the sickly and debilitated. It has done much to lengthen the span of life. It has revealed truths concerning the body-structure that enables man to treat disease in a new and intelligent way. Biology has enabled the wise man who now enjoys normal health and strength to fortify his body and insure a reasonable continuance of his physical well-being.

Because of biology it is known that loss of strength or vitality as well as all aches and ills are caused by an insufficient supply of one or more minerals in the body, resulting in a weakening of the tissue and permitting disease to attack the various organs and parts.

### Importance of Minerals

While iron plays a primary part in increasing the red blood count and enabling the vital forces to obtain enough oxygen to carry on the process of life, it is essential to man's health and strength that the body be continuously supplied with all the minerals of which strong, healthy tissues are composed.

### How Minerals Are Obtained

Natural foods and water contain all minerals essential to life and growth. When food-stuffs are deprived of much of their minerals because of modern methods of preparation, the body is robbed of the necessary building materials. Ill health follows.

### The New Health Builder

Magrik Health Builder is a biological preparation, the formula of which was devised by an eminent European biologist. It contains all the vitally necessary minerals found in the human body and as these minerals are exceedingly finely divided and in an easily assimilable form the vital forces can quickly appropriate such of them as are required to restore health and strength in a disease-weakened body. This accounts for the remarkable improvement that so quickly follows when Magrik Health Builder is taken.

Magrik Health Builder is a tissue food, rather than a medicine. It is intended for men and women of all ages as well as children. Those who are not in the best of health or who feel weak and feeble should not fail to give Magrik Health Builder the fair trial it so justly deserves.
