

Magrik Health Builder Supplies Nature's Own Essentials to Strong, Healthy Bodies

*This nationally known tissue
food now offered to every
ailing person on the
North Shore*

As biology has actually discovered the cause of sickness, it is but natural that this eminent and precise science should devise a treatment to overcome nearly every form of disease visited upon humanity. It is in Magrik Health-BUILDER that biology has contributed one of the outstanding nature-remedies. This preparation is based upon the fact that organic weakness and disease are due to a lack of enough of one or more minerals in the body, resulting in a weakening of the body-structure and slowing down of the vital forces.

The formula of Magrik Health-BUILDER was devised by one of the foremost European biologists. Thousands of tests made with this preparation on men, women and children afflicted with innumerable diseases and ailments were so satisfactory that it was placed on the market in a home-treatment form.

Magrik Health-BUILDER now has a country-wide sale in the United States. Its great success is because of the fact that it is more of a body cell or tissue food rather than a medicine as it contains all of the minerals required by life's forces to build strong, healthy, disease-resisting tissue.

It is a well known fact that not enough calcium in the body causes rickets. An insufficient amount of iron results in anemia. A lack of phosphorus is responsible for nervous disorders, and so on. The truthfulness of this has been demonstrated thousands of times. It naturally follows that a body receiving an ample supply of the necessary minerals daily is strong and healthy.

The minerals contained in Magrik Health-BUILDER are chemically pure, of full strength and in a form easily appropriated by the digestive and vital forces. It is because of this that such pleasing results follow so quickly when Magrik Health-BUILDER is taken. Nearly every ailment responds readily to the Magrik Health-BUILDING treatment. Of course, if the trouble is deep-seated or of long standing it will require more time to bring about the healthful condition.

People who are afflicted with any of the many curable ailments will find that Magrik Health-BUILDER will overcome the trouble even after other methods of treatment have failed. This is especially true in cases of indigestion, poor appetite, anemia, weak kidneys or bladder, nervousness, rheumatic or neuralgic aches or pains, insomnia, loss of weight or strength, constipation, headache, dizziness, nausea, general debility, itching, inflamed skin disorders, and similar troubles. Magrik Health-BUILDER is carefully prepared and now can be had at the

J. W. Costello Joins Chicago Law Concern

John W. Costello, 1618 Walnut avenue, Wilmette, assistant secretary of the Yellow Cab company and a member of the law firm of Samuels, Costello & Greenberg, resigned from both organizations last Saturday and on Monday begin a permanent association with Barrett, Barrett & Wermuth, attorneys, Chicago. Mr. Costello was with the Yellow Cab company for 18 years as a member of its legal counsel and three years ago was elected assistant secretary. He was graduated in 1912 from the University of Notre Dame and in 1929 he was president of the Notre Dame club of Chicago. At present he is a director in the group sponsoring the Rockne Memorial foundation. During the war Mr. Costello served as ensign in the U. S. navy and was cited for meritorious service. He is a member of the Chicago Bar association and The Chicago Law Institute.

DIRECTS PING PONG MATCH

Hugh Foresman of 515 Essex road, Kenilworth had charge of an exhibition ping pong match between New York and Chicago champions at the Indian Hill club on Friday evening, January 29. It is hoped to create an interest in this game at the club. Mr. and Mrs. Foresman entertained the Chicago players at dinner at their home before the game.

Miss Peggy Knight, 51 Kenilworth avenue, Kenilworth was at home from Beloit college for the week-end vacation after mid-year examinations.

Mrs. Raymond Roth of the Kenilworth Inn entertained her club at luncheon and bridge on Monday, February 1.

Dramatist Gives Talk in Glencoe Next Wednesday

Under the auspices of the Sisterhood of the North Shore Congregation Israel, Lincoln and Vernon avenues, Glencoe, on Wednesday, February 10, at 10:30 a. m., Allan Scott an international authority on the modern theater, will lecture upon the subject, "Mourning Becomes Electra, and Its Predecessors," through the courtesy of the Theatre Guild of New York.

Allan Scott graduated from Amherst in 1928, is a Phi Beta Kappa, and went to Oxford on a Rhodes scholarship. At Oxford he was a graduate student in English Literature and worked there on seventeenth and eighteenth century drama under the direction of H. F. B. Brott-Smith, the great Restoration scholar. At Oxford he wrote a brilliant series of essays on eighteenth century comedy, inspired by Granville-Barker's prefaces to Shakespeare, done from the point of view of the playwright and theater man.

At Oxford he also directed plays and attracted considerable attention. One of his plays, "The Last Act," was produced in England and another, "Doubleloon," will be produced in this country during the present season. He is also the author of "Pierrot Is Dead Again," a fantastic, philosophic satire, soon to be published in this country.

A cordial invitation is extended by the Sisterhood to everyone interested.

Mrs. D. L. Taylor and her two sons, David and Gerard, 849 Michigan avenue, left last Sunday for Phoenix, Ariz., where they expect to remain for several months.

YOUR doctor comes first—do not fail to consult him when real illness threatens. We do not compete with him. Rather, it is our desire to serve you *through* him—to carry out his orders quickly and accurately. Both you and he may depend upon our conscientious cooperation.
