

## SELL POPPIES HERE THURSDAY

(Continued from page 3)

contemplates the manufacture of all poppies by disabled veterans in hospitals for which service a little over \$7,000 was paid last year.

"It is only fair to remind your post membership that by the continuation and success of this Poppy sale, the department of Illinois has been able to maintain the largest and most efficient service department in any state in the Union.

### Illinois Leads States

"Illinois was awarded the National Service trophy at the Detroit convention. Our report showed that this department secured in the form of back compensation and pensions for living veterans and death benefits, War Risk Insurance, Adjusted Compensation and funeral claims a total of \$756,618.37.

"With a proper understanding of the need of the Poppy sale and through plans made in advance, it is believed that even though this is a year of depression, more poppies can actually be sold than ever before. Proper publicity should be provided far enough in advance so that the entire citizenship of the state can be made to realize their responsibility of the continuation of this program and work carried on by the American Legion in the name of our veterans and in an effort to assist many citizens of this state other than veterans themselves."

### Legion Posts Cooperate

The two Legion posts in the village have arranged a division of territory for the annual Poppy selling campaign. Proceeds are directed into funds for relief work among disabled and needy veterans.
