

Mothers Seeking Advice at Birth Control Clinic

That residents of the north shore are taking an active interest in scientific birth control is evidenced by the fact that mothers from Waukegan to Evanston are coming in increasing numbers to receive medical advice suitable to their individual needs from a woman physician in the Evanston clinic. It will soon be necessary to add another morning a week to the regular Tuesday morning session from 10 to 12 o'clock, it is said.

The clinic is conducted under the auspices of the Illinois Birth Control league.

Anyone interested in knowing more about this work may see or telephone the clinic social worker (Kenilworth 5515) at any time, it is announced. The executive secretary, Mrs. Lyons, may be reached by calling Central 1037.

A current issue of the Birth Control Review is kept with the periodicals in the Winnetka Public library for those who wish to follow the progress of the American Birth Control league. One hundred and fifteen clinics have already been established throughout the United States and three in the Island of Hawaii.

MOTORING EAST

Mr. and Mrs. F. T. Steingraber and their sons, Charles and Fred, of 737 Cummings avenue, Kenilworth, returned Thursday of last week from a brief sojourn at Lawsonia, Green Lake, Wis. They left again Tuesday to drive east for a few weeks and plan, while in the east, to see Miss Jeanette and Miss Ethel Steingraber, who are spending the summer in Maine.

Christian Science Churches

"Truth" was the subject of the lesson-sermon in all Churches of Christ, Scientist, on Sunday, July 24.

The golden text was, "He who blesseth himself in the earth shall bless himself in the God of truth; and he that sweareth in the earth shall swear by the God of truth" (Isaiah 65:16).

Among the citations which comprised the lesson-sermon was the following from the Bible: "O Lord, thou art my God; I will exalt thee, I will praise thy name; for thou hast done wonderful things; thy counsels of old are faithfulness and truth" (Isaiah 25:1).

The lesson-sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Mortals try to believe without understanding Truth; yet God is Truth" (p. 312).

WINS NUMERAL IN FENCING

Eugene Hildebrand, Jr., graduate of New Trier high school and son of Mr. and Mrs. Eugene Hildebrand, 530 Maple avenue, received his numeral in fencing at Northwestern university where he has been attending school the past year.

Mrs. Charles F. Southward, 306 Oxford road, Kenilworth, has her sister, Mrs. B. B. Watson of Little Rock, Ark., as her guest.

Miss Ainslee Bennett of Pittsburgh is visiting her sister, Mrs. Howard W. Knight of 575 Stonegate terrace, Glencoe.

Resumes Kindergarten Instruction in Autumn

Dorothy Pleasants announces resumption of her musical kindergarten at Winnetka Community House in the fall. For the past year while the Community House was being rebuilt, she has held her class at the Wilmette Parish Methodist church. Mothers wishing to enroll their children for the fall term are invited to call the Winnetka Community House.

NEW HIGH RECORD

What is believed to be a new high record in operating efficiency for American railways was established by the Chicago North Shore and Milwaukee railroad during the first six months of 1932, it was announced this week by John R. Blackhall, general manager. An average on-time mark of 99.01 percent was set by the 45,171 trains operated in regular service during the half-year period, while a record of 333,299 car miles operated per equipment failure was an all-time high for mechanical perfection of rolling stock.

Mr. and Mrs. Louis D. Jones, 325 Richmond road, Kenilworth, left last Saturday for Mondovi, Wis., where they will visit relatives. On the way they took their son, Dewitt, to camp Ma-Ka-Ja-Wan.

HERE FROM WEST

Mr. and Mrs. Wilbur Wickman, with their two children, Edward and Mary, are at the Kenilworth Inn for a few weeks. The Wickmans were former Evanston residents whose home is now in Hollywood, Cal.

Gen. William H. Rose, 814 Forest avenue, is in New York on a business trip.

LLOYD HOLLISTER INC., M. R.

"M. R." is our degree . . . we're proud of it . . . it means "maker of results"

We have earned our "degree" in the school of experience, over years of time.

"Maker of Results." It's a title of which we're proud.

Like the college graduate who has his "sheepskin" and degree and is equipped for a place in his chosen profession, so we, too, are equipped to serve capably and efficiently.

We're ready to help with printing problems. We're ready to assist in getting what you want most from each piece . . . RESULTS. Our experience has assembled for us a fund of information about what will succeed and what won't.

We're frank about it. In a friendly way we'll tell you how we would do this . . . why we would not do that.

Just as you go to your doctor for advice when you are ill or to your lawyer about legal matters, so we want you to consider us your printer. Feel free to come to us with your printing problems and we'll help you.

Your satisfaction and the results you want mean more to us than a mere dollars-and-cents order of printing. This organization is dedicated to service deeper than that. Our representative is ready to see you at any time. Make it soon and learn what we mean to many of our customers on the North Shore whom we have served for years.

ANALYSIS . . .

In every technical problem analysis comes first. In medicine. In law. In accounting. Only by analysis can a working, sound basis be established. A basis that will lead to success.

Analysis is just as important in the production of a piece of advertising.

You just don't "get out a piece of advertising." Too many do, and miss out on results.

Advertising is built . . . step by step . . . on careful thought, and a thorough understanding of its "whys and wherefores."

The ultimate results must always be kept in mind. Copy, layouts, artwork, must be carefully planned. Type and paper and ink and presswork must be considered carefully. It all hinges on that first thorough analysis.

We have analyzed many advertising problems successfully. We have produced printed advertising that has given satisfaction and brought results. May we help you, too?
