MERGER BILL IS **LEAGUE SUBJECT**

(Continued from Page 8)

of the state legislature, and that naturally leads to misunderstandings, the Illinois State Tax commission is firsthand interested in the movement because it wants to see taxes lowered. Griffenhagen and associates have been retained to make a thorough study and cross-section analysis of the over-lapping situation throughout the state. This group will make recommendations to the legislature. Senator Elmer J. Schnackenberg of one of the Chicago Senatorial districts has been primarily interested in steering the legislation at the proper time. Possibly there has been some marking time recently, awaiting the results of this week's election, and Mrs. Dowernsberger. But soon recommendations will be forthcoming. On the one hand, it is a forthcoming. On the one hand, it is a given by Mrs. Tracey, including "The foregone conclusion that many dupli- Scarf Dance," by Chaminade, and cations in governmental authority can "Gypsy Love Song," by Herbert. Mrs. be abolished. On the other, no suburbanite wishes to see the integrity of indiv- "Serenade," by Toscelli," "Thy Beam-iduality of his community sunk into a ing Eyes," by McDowell, and "Trees," political morass.

."On this latter score the league has half-cocked or to assume things, not give a lecture on the "Adolescent Age." there will be be recommended (without heard him. any illusions as to how far those recomture) that only those functions that every fair-minded person will agree can be handled on a metropolitan basis will be considered in any centralization. As far as taking away the identity of Wilmette, that is just ridiculous as far as anything that we have in mind is concerned."

Friday, November 18, instead of the regular meeting, the Parent-Teacher association is to have a dessert bridge Mrs. Harry Cumberland, 119 Fifth party in the school hall starting street, returned to her home recently promptly at 1:30 o'clock to give the

What Is Precision?

Real precision when applied to eyeglass lenses means - absolutely uniform accuracy not in the center only but from edge to edge.

Often we replace alleged bargain lenses with our precision ground lenses which eliminate marginal distortion entirely.

Carl Zeiss (Jena) Punktal and other precision ground lenses are always to be had at the Almer Coe stores. For nearly half of a century we have maintained our traditional reputation for highest quality ophthalmic lenses.

You get added comfort with precision ground lenses.
