Exponent of Good Health

Mathew Francis Photo

Mrs. Inez Bliss, community nurse is pictured here at her desk in the Wilmette Health center, 1901 Shiller street, Wilmette. The center is affiliated with the Chicago Tuberculosis institute. The Health center is entirely local. It serves only Wilmette. In tubercular work it serves only New Trier township. Its chairman and all the board members live right here. They work untiringly to serve Wilmette. They realize full well that the welfare of the Health center is entirely dependent upon the generosity of the villagers; individual citizens, organizations and the Chicago Tubercular institute.

Gives Christian Science Lecture Here Nov. 20

A free lecture on Christian Science will be given in First Church of Christ, Scientist, in Wilmette Sunday afternoon, November 20, at 3 o'clock, by the Rev. Irving C. Tomlinson of Boston, Mass. Mr. Tomlinson's subject will be: "Christian Science: Its Advantages Free to All." Mr. Tomlinson is a member of the Board of Lectureship of The Mother Church, the First Church of Christ, Scientist, in Boston, Mass.

Mr. and Mrs. Weller T. Kimball, 333 Leicester road, Kenilworth, are planning to go east next week to spend Thanksgiving with their son who attends Andover.

"We are in existence to serve our fellow men," reads a statement from the Health center. "This we do cheerfully and wholeheartedly. Our primary object is to prevent disease. Our secondary object is to destroy it. The first is by far the wiser and cheaper. The Chest, Dental and Baby clinics are now in operation. As the community's pocketbook grows weaker, our list of disease cases grows stronger. We can imagine no greater hardship to befall the underprivileged in any community than the lack of a Health center. We think there is no greater despair on earth than to have a member of the family stricken and no help or advice available. The question today is not whether we can afford to support a Health center in our village, but rather *can we afford not to*. Curing disease cases in Wilmette is your protection. Disease contacts can be made so easily and unsuspectedly. The Health center is your guardian as it works unceasingly so that you and your children may move about freely with the danger of making tubercular contacts. Support the Health center. Buy Christmas seals."

Mr. and Mrs. Robert Swaim, 701 Laurel avenue, motored to Hoopston and Danville, Ill., last week-end, returning on Monday.
