

VOL. 6, NO. 20

WILMETTE, ILLINOIS, NOVEMBER 17, 1932

Wilmette Schools Give Boys Chance to Join Fine Band

Come on, fellows, join the band. Have some fun out of music. You fellows who quit because the music was too easy can come now and show how good you are. The music we are playing now is hard enough to study a week, and even after that time you won't play it perfectly. Mr. Fair, the conductor, is throwing a party for all the band members and fellows who want to be in the band.

Come on out for band practice on Tuesdays and Fridays and show your good sportsmanship.

Come out at 12 o'clock, Friday, November 18, and find out where Mr. Fair lives. The party will be at Mr. Fair's house Friday, November 18, 8 o'clock, at night.

The band practices at Howard school auditorium. We have decided to hold band rehearsals at Stolp just as soon as we get more fellows. Charles Moon and his brother, Benny, are the only Stolp fellows in the band so far.—Bob Christie, Howard 8-C.

Grid Season Is History; Speedball Has Spotlight

All the league football games ended November 3 and the speedball games started November 10. We keep the same teams as in football, except that each captain has to give some one else a chance to be captain. During gym periods we practice speedball. Recently, in gym period every boy except one, who had his gym shoes on, had to take his shoes off because we played in the gym unexpectedly, and the hard-soled shoes ruin the floor.—Dudley Yeoman, Howard school.

Interesting Scotch Scene Shown in Large Picture

In the homeroom of 8-C there is a large picture. It is hanging on the front wall. It is a picture of Scotland, a scene along the "East Coast Route." There are a large bridge and a boat, some horses, and several men working on what looks like a boat. We all hope that if you have a chance you will come in and see it.—James Dricker, Howard 8-C.

LIKES U. S. HISTORY

This year the eighth-grade social science is very interesting. We are studying United States history. I think it is much more interesting to study something about the country where you live, especially history. In class we have oral recitations, map work, and written work.—Jeanne Macdonald, Howard 8A.

START VOLLEY BALL

The girls of Howard school have started to play volley ball. It is a lot of fun. We hope to win the pennant when we play the Stolp girls.—Helen Schaeffer, Howard 8-C.

GLEE CLUBS REHEARSE

The boys' and girls' glee clubs are working on some new pieces, which will be ready to give to the audience soon.—Phil Samuelson, Howard 8-C.

Junior Life Article Tells Its Own Story

This is a story of the private life of a JUNIOR LIFE article.

"A person took a piece of paper and wrote me on it. I was then taken down to where they looked at me, crossed a few words out and added a few more. I was then taken with many JUNIOR LIFE articles to the publishing house. There I was edited, set up by a linotype operator, checked and printed in a news magazine called WILMETTE LIFE.

"When I appeared in the paper I made the writer of me very happy because she or he could go to the show." — Priscilla Pollock, Howard 8-C.

What Are a Few Kicks in Life of Soccer Star?

Last week 7-B had gym and Mr. Stone let us play soccer, which was a lot of fun. Eric Samuelson took the nine best fellows from the room and made a team. The other nine also formed a team. Since the opposition would have been terribly lopsided, Mr. Stone told us to line up and change backfield men to be more evenly balanced. We lined up and had a very good game. Some fellows got kicked but that was nothing. We won but in a hard fought game, 2 to 1.—Bob Matthews, Howard 7-B.

Ravinia Intercepts Pass to Beat Wilmette, 6 to 0

Wilmette lightweight football team lost to Ravinia, 6 to 0, at Ravinia, Wednesday afternoon of last week. Ravinia intercepted a pass and made a touchdown in the third quarter and missed the extra point. The game ended before any one else scored. We were to play a return game with Ravinia at the Wilmette Village Green.—Harold Borre, Howard 8-C.

VILLAGE GRIDDERS LOSE

The Village heavyweight football team played the Wolverines at the Village Green Sunday, October 30. The referee was L. Basting. The timekeepers were R. Steiner and G. Ludiger. The game started at 3:15 and ended about 5 o'clock. The Wolverines won, 13 to 0.—Harvey Steffens, Howard 8-C.

BULLDOG BARKS FOR BALL

We have a bulldog named "Mike." One night my daddy brought home six balls. Then daddy gave Mike a ball. I threw two balls and he did not know which to chase. Then a ball got under the radiator and he barked until someone got it out for him.—Martha Leach, Howard fourth grade.

IT'S SPEEDBALL NOW!

Speedball started off with a bang last week. I hope that all of the boys will play this year and make their teams successful. Come out and play with your team.—James McIlraith, Howard 7-B.

HERE'S CALL TO ACTION

The Howard school boys and girls have been writing more articles for JUNIOR LIFE than Stolp. Watch out Stolp!—Jane Solomon, Stolp 1B.

Wilmette Aero Club Promises Good Time

On Wednesday, November 2, the Wilmette Aero club started its annual season.

In order to get a junior pilot's license you have to build a plane that will stay up for 30 seconds. In order to get a senior pilot's license you have to build a plane that will stay up 60 seconds.

If you join you will have lots of good times. We have many contests and meet every Wednesday night from 7 to 9 o'clock at the Stolp gym.—Dick Curry, Howard 8-C.

Things Do Not Always Turn Out as Expected

Once upon a time, "way back when," there lived a cat and dog. The cat lived upstairs and the dog lived downstairs in a two-family house. The cat was a good scrapper and didn't like the dog. The dog didn't like the cat and was also a good scrapper. One day the cat and the dog both disappeared. The two families got together to try to find them. They looked everywhere except the chicken coop and, when they did look there, the cat had four kittens and the dog was standing guard over them.—William Hayt, Howard 7-B.

Howard Girls Practice First Volleyball Game

Girls of Howard school practiced their first volley ball game Monday, November 7. We practiced passing and receiving the ball. Then Mrs. Fanckboner chose teams from the group of girls who were there to play. We played a while and then we went home. I think the girls who didn't know much about the game learned a lot from watching the girls who did know how to play volley ball.—Lorene Richards, Howard school.

Samuelson Is Elected Howard 8C President

We elected our room officers several weeks ago. They are Philip Samuelson, president; Susan Anderson, vice-president; James Dricker, secretary, and Frederic Wellmann, treasurer. Our council members are Dick Wernecke and Helen Schaeffer. Our art committee members are Susan Anderson, Frederic Wellmann and Helen Schaeffer.—Priscilla Pollock, Howard 8C.

NOTEBOOKS FOR MUSIC

Mrs. Clark collected our notebooks on the string choir recently. Now we are working on the wood-wind choir which consists of the clarinet, the flute, the piccolo, the oboe, the bassoon and the English horn.—Grace Winkle, Howard 8C.

MOVIES FOR CHILDREN

The James Nelson and Anna Louise Raymond foundation will present a program of three motion pictures for children at Field Museum of Natural History Saturday morning, November 19. Admission is free, and no tickets are needed. Children from all parts of Chicago and suburbs are invited to attend. The films to be shown are "Three Scouts on the Moonbean

Contra Bassoon in Same Family as Tiny Piccolo

About two weeks ago, Mrs. Clark said that descriptions of the wood-wind choir must be in ink in the music notebooks. They must be in order also. The order is as follows: piccolo, flute, clarinet, alto clarinet, bass clarinet, English horn, oboe, bassoon and contra bassoon.

The piccolo is the same as a flute, except that the former is small and its tone is one octave higher. The flute is 27 inches long and the piccolo from 9 to 12 inches long. The clarinet is the main instrument of the band. It takes the place of the strings (violin). The alto clarinet takes the place of the viola and the bass clarinet the place of the cello.

The English horn is neither English nor a horn but still is called an English horn. The oboe is a difficult instrument to play. It looks like the English horn. The bassoon has two reeds. The contra bassoon is the biggest woodwind instrument on this earth.—George Schwall, Howard 8-C.

Louise Schreiber Chosen Senior Council President

Officers for the Senior council were elected on Tuesday, November 1. The people running were: for president, Louise Schreiber and Donald Scarff; vice-president, Robert Marsh and Marjorie Winkle; secretary, Rosalie Carlen and Frances Weber; treasurer, Helen Schaeffer and Virginia Cote. The election results are as follows: president, Louise Schreiber; vice-president, Robert Marsh; secretary, Frances Weber, and treasurer, Helen Schaeffer.—Frances Weber, Howard 7-B.

Louise E. Menning Is President of Her Class

The class officers in Miss Madsen's room are as follows: president, Louise E. Menning; vice-president, William Hayt; secretary, Marian Goode; treasurer, Douglas Huck; art committee, Leslie Matson, chairman, Doris Hargis and Lois Kunzelman; program committee, Dudley Yeoman, chairman, Bob Anderson and Frances Habeck.—Louise Menning, Howard 7B.

SEEK THIRD VICTORY

On Saturday, November 12, the Wilmette heavies were to meet New Trier freshmen on the gridiron for the third time this season. The heavies have had two victories over the freshmen, the first being 32 to 0 and second 20 to 6.—Dick Curry, Howard 8-C.

EDITORS BEGIN DRIVE

The things that seem to be most wanted in Howard 8-C are JUNIOR LIFE articles. The editors have posted signs around the room. We hope they do some good.—Susan Anderson, Howard 8-C.

Trail," "The Birth of a Chick," and "From Limestone to Sidewalk." There will be two showings, one beginning at 10 o'clock, and one at 11, in the James Simpson theatre of the museum.
