Meadow, Spring Garden to Bloom at Flower Show

The Morton Arboretum at Lisle, Ill., under the supervision of C. E. Godschalk and E. L. Kammerer is building the most extensive and elaborate naturalistic exhibit this arboretum has ever made in any flower show. Its exhibit at the flower show of The Garden Club of Illinois which opens Friday night at Navy pier will show the edge of a pasture and meadow with a road entering and running along a boggy marsh. The living picture will be 24 feet wide and 85 feet long and the road will wind past three Red Oak trees, one 14 inches in diameter and two about a foot in diameter. Plantings of ironwood, bur oak, basswood and dogwood will hide the road from view and it will finally disappear in a planting of yellow stemmed willows, larches in leaf, viburnums, cat tails, marsh grass and marsh marigolds. June berry, blood root and hepaticas and trilliums are being forced and will be in bloom in this exhibit which will be one of the outstanding productions of the entire flower show.

The Lincoln Park board is making a naturalistic spring garden. There is to be a small clover leafed shaped pool with a figure reflected in the water. At the edge of the pool are ornamental grasses and in the planting which will be reminiscent of days gone by will be flowering crabs, Japanese quince, lilacs, pink and white flowering almond, the yellow fragrant flowering currant of grandmother's garden, flowering Japanese cherries, wild plum, deutzia, the Daphne (a broadleaved evergreen with a delightful odor) tulips, snapdragons, pink and white astilbe, the old fashioned funkia or day lily, grape hyacinths, primroses, schizanthus and cinnerrarias.

Plans Program

Miss Vivienne Morin of 635 Maple avenue, Wilmette, has arranged that "Two World's Fairs" will be the theme around which the April 4 program of the Juniors of the Woman's Catholic Club of Wilmette will be developed.

A short, but interesting background of some of the highlights of the Columbian exposition and of customs and manners of 1893, will lead to the main topic of the evening, "A Century of Progress."

Through research work and conversation with many "old-timers," Miss Morin has, for the past few months, been gathering together interesting facts and little sidelights of the late nine-

teenth and early twentieth centuries not generally spoken of today, but which some of the older members of the Mother club might recall and the juniors enjoy.

Helping Miss Morin to portray the customs of the past will be Miss Ruth Truska of Wilmette, well known pianist and artist pupil of Mme. Eda Goedecke, and Harriet Childs Atwood of Winnetka, soprano well known on the north shore for her charm and beautiful voice.

As the "piece de resistance" of the evening, the Juniors announce that they are fortunate in being able to secure Earle Harrison of Evanston to describe and portray by motion pictures, the wonders of the modern 1933 A Century of Progress.

Give Earthquake Bridge for Delta Zeta Alumnae

Miss Vivienne Morin and Miss Ruth Truska were co-hostesses at a St. Patrick's party for the alumnae of the Northwestern chapter of the Delta Zeta sorority at the home of Miss Morin Saturday afternoon, March 18. An amusing game called Earthquake bridge kept the guests in gales of merriment throughout the afternoon. Small St. Patrick prizes were given out at the end of each game, which added to the fun. The awards were given to the lowest score and comparisons of minor disasters through the hectic games were the source of conversation during the tea hour.
