

Stolp Assembly Hears Enjoyable Talk on Indians

The Stolp assembly was most enjoyably entertained by Mrs. Altman Case on Thursday, March 23. Mrs. Case gave us a talk on Indians. She had many articles made by Indians; among them, baskets, pottery and paintings. Mrs. Case was dressed in a real Indian dress which she had obtained from the Indians.

She has been among them a great deal and knows many of their habits. She sang some Indian songs for us and also gave us a dance. The program was certainly enjoyed by all.

We have had many good programs this year, some of them by the pupils of the school and some by outside talent. We have enjoyed them all and hope the good programs will continue to be given.—Julia Booz, Stolp 1B.

Pupils View Interesting Movies About Industries

Last Tuesday we had in our auditorium some interesting and instructive moving pictures brought to us by International Harvester company, and Goodyear Rubber company. The first showed the construction of the Boulder dam, and the second illustrated the building up of automobile tires. Between the reels, a man told some interesting points about the World's fair that will take place in Chicago this summer.—Louise Crane, Howard 8C.

Heavies Defeat Lights as Cage Season Ends

The basketball season is over. Wednesday, March 22, at 6 o'clock, the "heavies" and the "lights" of the C league played their last game. The victory was given to the heavies, 20 to 19. The players on the heavies were Harvey Steffens, Bob Steffens, Albert Anderson, Frank Brychta, Robert Seifert and Jim Versino.—Frank Brychta, Howard 8A.

MUSIC ANNOUNCEMENT

Mrs. Clark, our music teacher, said that if we have the four choirs of the orchestra corrected we shall be permitted to hand them in for the final grade. This grade covers the neatness, order and the grades received on the entire orchestra. — Dick Curry, Howard 8C.

BOYS ARE HAVING FUN

Tuesday, March 21, Mr. Ball chose three teams, one team to play each quarter. They played the peewees. We put up a good fight but Mr. Ball got the ball so much we couldn't get it. If you want to play, come down on Tuesday or a Thursday. — Howard Reinwald, Howard 8A.

PLAN BOXING SHOW

On April 1, there will be a boxing and wrestling show at the Howard school gym. There will be seven boxing bouts and three wrestling matches. — Dick Curry, Howard 8C.

STORMY DAY IN MARCH

It was a stormy day in March in 1933. Pieces of ice fell from the trees. The ground was white with snow. It was bitter cold. Limbs fell from the trees.—John Voss, Logan 2nd grade.

Athletes Preparing for Gym Exhibition

The boys at Stolp school are getting ready for their annual demonstration and spring exhibition which will be held at the Howard school gymnasium tomorrow evening. This promises to be bigger and better than last year's show.

There will be many different events such as high jump, the dash, pull-up, chinning, free throws, and other sports and games. There will be a volleyball game between the E's of Howard and the E's of Stolp, and the C's of both schools will also clash. Another event will be a basketball game between the peewees from Howard and Stolp. We all hope the program will be enjoyed by all.—Jack Norris, Stolp 2C.

This Student Would Be Pleased by More Tests

About one week ago, Miss Davis, the teacher of 5B, gave the room a test. The test was not so hard for some people, and for some people it was hard. The room has not been given the papers back yet, but I surely hope I have a nice paper. I enjoyed it very much. I hope the room has too, and I shall be pleased to have some more geography tests.—Norma Ley, Howard 5A.

Track Season to Begin Immediately After Easter

Get ready, you peewees, lights and heavies, track season starts right after Easter and promises to be a "wow" of a season. All you boys come out for it. Everybody has a chance. Even if you don't get a letter in track, baseball still awaits you. Come on, fellows, let's show our coaches that they have something to brag about.—Bob Christie, Howard 8C.

Science Notebooks Due; Must Be Written in Ink

Science notebooks due and the requirements must be in ink! The requirements are: spring diary stating what you see in the spring, assignment page, marking the assignments, list of scientists of the world, science scrapbook, sciences of use, class notes taken in class, and many more. — George Schwall, Howard 8C.

AWAIT PLAY AT HAVEN

Saturday, March 18, all the children who had tickets saw the third play at Haven school. The play was "The Make Believe Gentlemen." If you did not see this play, be sure to see "Alice in Wonderland." It will be at the same place, April 22.—Bill Howard, 8A Howard.

FOOD BARREL LONELY

The food barrel in the Stolp building seems to have been neglected. It doesn't have many canned food visitors. Let's try to make the food barrel think it is very popular by putting more canned or non-perishable foods in it. — Cassie Empfield, Stolp 1B.

THIRD GRADE WRITES POEM

The third grade of Mrs. Joyce's room made up a poem from the story, "The Fox and His Flute." The poem is to be published soon. — Lorraine Winkle, Howard 3A.

Class in Social Science Studies Monroe Doctrine

In social science the eighth grade pupils are studying an interesting phase in American history, the Monroe doctrine. This was a composition sent to all countries of importance in Europe and Asia. We wanted to protect ourselves against the Holy alliance composed of Prussia, Austria, France and Russia. The Monroe doctrine advised European nations not to colonize in the Americas and that if they did it might result in war. They heeded the warning.—Lowell Snorf, Stolp 2C.

Rip Van Winkle's Wife Wags a Sharp Tongue

The boys and girls in 8A are starting on a new story in Miss Flasker's room, "Rip Van Winkle." We are on the first scene showing Rip Van Winkle and the rest of the old men in the town sitting in front of the inn. Then Mrs. Winkle, a sharp-tongued person, comes in and scolds them, and one by one they leave. We expect to have as much fun on the last scenes as we are having on the first.—Gordon Boling, Howard 8A.

Snow Blankets Ground on First Day of Spring

March 21 was the first day of spring. It certainly did not look like spring. The ground was covered with snow, and the trees were coated with ice and snow. There is one true saying that if March comes in like a lamb it goes out like a lion. We usually think of spring as warm weather, baseball and vacation, but this is surely different. Here is hoping that the spring weather will soon arrive. — Dick Wernecke, Howard 8C.

Science Pupils at Stolp Are Making Scrapbooks

In Miss Stevens' science class we are working on science scrapbooks. Every pupil has his own scrapbook and is expected to have twenty-five science stories completed by the first of May. Each story has an illustration and some writing describing the illustration and the science. Some sciences are represented by one page and others by two or more. Pupils are allowed to select any sciences they wish to write on. — Charles Gregory, Stolp 2A.

HOWARD SKYROCKETS WIN

The Howard Skyrockets recently defeated the St. Joseph team, 26 to 4. The Skyrockets are as follows: Alice Wagner, Dorothy Davis, Jean MacDonald, Louise Schreiber, Irene Baron, Marjorie MacMillan, Beatrice Leal, Doris Paterson and Bessie Bouchikas. — Bessie Bouchikas, Howard 8A.

TAKE NEW TRIER TEST

The Stolp eighth grade was given a New Trier test. The test was a standard achievement which went right up to New Trier where corrections will be made and grades kept to show how much you know. — Dorothy Starkel, Stolp 2C.

EXPECTS GOOD GRADE

Recently, 5A had a test in language. I think I got a good grade in it. It was fun to have the test and I like to do it.—Dick Cochran, Howard 5A.

Girls of Howard and Stolp Offer Gymnastic Show

The sixth, seventh and eighth grade girls of the Stolp and Howard schools put on their gymnastic demonstration last Tuesday night at the Howard school. The girls demonstrated basketball throwing, volleyball throwing, free throw, high jump, dash, basketball kick, and played a basketball game.

The B's and C's of Stolp played the B's and C's of Howard in Volleyball. A special team was picked from each school to compete in basketball. Girls who had the highest score in the events listed above were chosen to demonstrate them on this occasion. The letters were given to girls from Stolp whose points ranged from 240 to 323.

The teams were all very well picked and I am sure the program was enjoyed by all.—Lois Ann Rosen, Stolp 1B.

Eighth Grades Undergo Three Important Tests

The eighth grades went to the auditorium last week and had three tests. We had an intelligence test, an arithmetic test and a general test. We shall have more later. These tests are the means that the high schools have of placing you at New Trier or the school you attend next year. These tests are important, so I hope we all get good grades on them. — William Graham, Howard 8A.

One Can Scarcely Blame Robert for Getting Angry

Robert had a birthday, March 23. When we went out for recess we were going to give him a spanking. One of us held him and the other spanked him. Then he sat on the ground so we couldn't do anything more. Then we had to pull him off the ground to spank him again. He got a little angry, so we didn't do anything else to him.—Frank Huffman, Howard 5B.

ALL-SCHOOL PROGRAM

Each room in the Stolp school will take part in the program of their assembly on April 4. It has been planned that every division should do something that would represent the subject taught in the home room. This, to our knowledge, has never been done before in our school. — Jim Lamb, Stolp 2C.

THRILLED BY PIONEERS

I like history very much because it is about pioneers. The pioneers then were called the Forty-Niners. It tells about the rush when gold was discovered. Our teacher is Miss Van Horne and a very nice teacher, too—Jane Holmes, Howard 5C.

FINISH HISTORY UNIT

Thursday, March 23, we did not have our usual history. We worked on our history notebooks instead. It was on our last unit. I hope we like the next unit, too.—Robert Cederberg, Howard 5B.

HERE'S TIMELY ADVICE

Get out your class books, boys and girls of the eighth grade. The year is nearly over and you want to get it filled.—Jane Solomon, Stolp 1B.
