

Central-Laurel P.T.A.

The primary function of this civic body is to bring the parents, teachers, and children into a closer relationship and understanding.

This is done in our meetings through the program service and social hour, through the room teas and activities of various chairmen and committees.

In this capacity the membership chairman, finance chairman, the chairman of rooms, social chairman, and hospitality chairman come in direct contact with the greatest number of parents.

The finance chairman and membership chairman are the ones who furnish the funds with which to carry on not alone for our own organization but for the state and national work through the dues paid that children and localities less fortunate than ourselves may derive benefits of P. T. A. work.

Below are listed some of the ways in which our funds are spent. If you read this please call attention of your friends to this and look for the annual report of the treasurer in the next P. T. A. News.
