PAINT UP

for your
WORLD'S FAIR
Visitors

Paints and varnishes are sold in sealed cans.

There are more different grades of paints than there are of shoes, but before buying shoes, you can examine them and compare the quality of one grade priced at \$2.50 a pair and that priced at \$5.00 a pair.

When you purchase an article in a sealed can, your greatest protection and insurance that you will get your money's worth, is the renown and prestige of the BRAND identifying merchandise that is backed by the reputation of the manufacturer.

The greatest RISK lies in buying unknown brands of merchandise.

"Cheap Paints" are the most expensive.

PRATT & LAMBERT has manufactured quality varnish and enamel products continuously for 85 years. Brands such as "61" Vitralite, Effecto, etc., have been extensively advertised nationally for the past 30 years and are universally and favorably known among Architects, Painters and Householders.

Commander paint products—a member of the PRATT & LAMBERT family—guarantee the maximum in service and protection of property. The cost is lower than at any time during the past 15 years. Our policy is to sell paint products that the "whole world" knows—TIME TESTED.

QUALITY IS STILL TO BE HAD . . . if the buyer DEMANDS IT! In recent weeks, more and more people, disgusted and unhappy because of their sad experiences in a market that has featured price as the sole lure to purchasers, have been turning once again to quality and merit and durability as the only really worthwhile reasons for spending money. Turning again to stores whose integrity they know and manufacturers whom they have reason to respect. Because of service and quality merchandise Millen Hardware Company is now entering upon its 26th year in Wilmette.
