

Health Commissioner Urges Immunization of Children

**Free Treatment Provided for
Children Whose Parents
Cannot Defray Cost**

By Dr. Martin H. Seifert
(Wilmette Health Commissioner)

Last week fifty-eight children were vaccinated against smallpox by the Health department, in addition to those who were vaccinated by physicians in their offices. On Wednesday, May 31, Schick tests for diphtheria will be given at the Health center at 1901 Schiller street. The physicians are prepared to do this work in their offices at any time, and we are asking and encouraging you to call your physician in regard to immunizing your children. Persons who are unable to pay any fee for having the work done are asked to go to the Village hall and sign an application for free treatment before going to the Health center. A parent or guardian must sign this application.

Classify Children

Children to be given the Schick test are:

1. Those who received treatment last fall or winter and have not been tested since (Children over 7 years of age).
2. Those who have had treatment more than two years ago.
3. Those who have never had treatment for immunization against diphtheria. This includes all children over 7 years of age who have never had treatment. Children under 7 years are practically always in need of treatment, and the preliminary test in them is not necessary.

During the next week we hope to start the series of treatments. Then all children to be treated from one year up should be taken to their physicians, or, if that is impossible because of lack of funds, they should be taken to the Health center.

New Trier Students Hurt in Auto Crash

Two New Trier High school boys were taken to the Evanston hospital last Saturday noon when the car in which they were traveling north on Green Bay road in Glencoe struck the curb near Harbor street and toppled over after a front tire had blown out. The boys are Dick Preston, 17 years old, 1031 Greenwood avenue, Wilmette, who is a junior at New Trier, and Philip Dostal, 233 Fairview road, Glencoe, a freshman. Preston's back was broken and Dostal suffered scalp wounds.

HOME FROM TRIP

Dr. and Mrs. Donald M. Gallie, 1115 Elmwood avenue, returned to their home Tuesday night after a short motor trip to Wisconsin. They left Sunday morning for Fond du Lac, where they were guests of Dr. and Mrs. T. Hardgrove, who gave a dinner in their honor Sunday night. On Monday they went to Neenah, to attend luncheon given during the state dental meeting at which Dr. Gallie was the speaker. His talk was entitled, "Is Dentistry Decadent?"

Mrs. J. Angus Steven, 124 Broadway avenue, has returned from a trip to Scotland. She went to see her two sons who are in school in Edinburgh.

This year we feel it will be especially necessary to have all young children immunized against diphtheria and smallpox in this area because of our close proximity to the World's Fair. It is a well known fact that epidemics follow the congregation of great masses of people, and some readers may recall the smallpox epidemic which followed the World's Fair in 1893. *Have Your Children Protected!*
