**Again Urge Vacation of
Alley on Southwest Side**

A number of resident property owners appeared before the Village board at its meeting Tuesday evening to urge the vacation of the alley between Seventeenth and Eighteenth streets, extending from Isabella street to the alley south of Wilmette avenue. James S. Barcus, 303 Seventeenth street, was spokesman for the delegation. He stated that all but three of the resident property owners had signed the petition to vacate the alley, but that there are several non-resident owners who have not responded to requests to sign. The board took the position that unless all of the affected property owners signed the petition it could do nothing, as the Village would be subject to action for damages. The petitioners agreed to make further effort to secure the needed signatures.

Mr. and Mrs. Stephen K. Johnston and Mr. and Mrs. Homer Howard of Columbus, Ohio, and Mrs. Elliot Stevens of Port Washington, Long Island, were recent guests of the Frank Cherys of 704 Roger avenue.

Under the Blue Eagle

By the Rev. George D. Allison

Nearly every serious article discussing the present impasse and the way out, refers sooner or later to the non-material, non-financial needs as after all the greatest. How are we to restore confidence, build morale, release credit, change the social and economic climate, and the like. Here Religion has its contribution to make.

In the first place certain old-fashioned virtues will have to be cultivated. PATIENCE—for no scheme is going to work like the waving of a magic wand. SYMPATHY—for the difficulties of all parties: the business man who has scarcely kept going and is now asked to increase pay and take on more workers; the bankers, urged to lend freely and still safeguard the depositors' money; housewives, with prices going up fast while the income remains stationary; above all, for the great multitude still hopelessly unemployed. COURAGE—how we need it! To face new and untried circumstances and obligations, to undertake bold and generous ventures in employment and wages, to meet the tests and strains just ahead. HONESTY—to pay our debts and our taxes, to restore the credit of governments and securities, to give value for value received, to make the shorter day worth the pay.

The New Deal embodies so many values for which our churches have contended: abolition of child labor, reasonable minimum wages for those at the bottom of the scale, relief from the long day and the long week, all looking to a more just and brotherly distribution of the fruits of God's bounty in nature and man's genius in machinery. Churches should use the new Home Study book "Christianity and Industry in America," by Alva Taylor. It is heartening to read again of labor's rise from slavery, through serfdom to the status of wage-earner. The betterment of conditions in hours, wages, housing is evident but there is a long way to go. Partnership in industry beckons. A Christianized industrial democracy gleams ahead.

Young Christians might profitably strive to draw up a CODE FOR THE CHURCHES, doing away with sectarian competition and theological wrangling, with formalism and hypocrisy, with indifference toward the poor and the underprivileged. There should be a New Deal on Christian loyalty, and an increase in the number of hours spent on religious activity by those who sign up under the Cross of Christ. If we are to have a forty-hour week for labor, we should give our best thought to the right use of leisure.

Through ancient imperialism, medieval feudalism, and modern industrialism, the religious ideal of Jesus, a Kingdom of God on earth as it is in Heaven, still ameliorates the short-comings of the current order, still furnishes a dynamic for progress.

Let us firmly resolve that "under the Blue Eagle" our America shall move forward to the new and better day.

Editor's Note: Above is a synopsis of a sermon on the theme "Under the Blue Eagle—religious aspects of national recovery given recently by the Rev. George D. Allison, minister of the Wilmette Baptist church.

**More Wilmette Firms
Recorded Under NRA**

The list of Wilmette concerns signing President Roosevelt's blanket code in the NRA campaign was enlarged the past week by the addition of the following:

Joe's Ice Cream Store, The Dutch Oven, Henry P. Specht, Frank R. Eager, Ridge Dry Goods and Shoe Store, Joe Lyman Service Station, King's Service Station, Sheridan Restaurant, Paul Borchikas Lunch Room, Max Schichl, A. Abramson, National Biscuit company.

PONDER LIQUOR LAWS

The Village board received at its meeting Tuesday evening an announcement from the Illinois Municipal league that a meeting of that organization is to be held in Springfield on September 22 to consider home rule liquor regulations. It was referred to Chairman Kinne of the
