The most economical heat is **DEPENDABLE**

On the coldest days you can have all the heat you want with coal. You depend on no one else. And coal cannot get out of order. Fortunately this *dependable* fuel is the most *economical* fuel. Coal heat costs less, much less than substitutes. It is safe, quiet and can be self regulating if you wish. For assurance of full measure and honest grading, buy from the merchant in your neighborhood who is affiliated with the Chicago Coal Merchants Association.

COAL HEAT STILL COSTS LESS!
