

Offering North Shore Car Owners this New Scientific Method of Testing Motors

Now is your chance to know the exact condition of your motor and the units that are vital to good performance. Tests made with the Weidenhoff Motor Analyzer are scientific and accurate. This amazing new device enables us to make a complete analysis of your motor under full operating conditions.

VISIBLE TESTS

The Weidenhoff Motor Analyzer is designed so that you can watch our tests and see the results for yourself. The condition of your motor and operating units is plainly indicated for your inspection.

*Modern science brings this positive motor analysis—entirely eliminating costly guesswork. Now you can **KNOW** the exact condition of your motor.*

Our Free Motor Analysis leaves nothing to "guesswork." It provides positive proof of your motor's condition — compression, valves, piston rings, ignition system units, etc.

38 IMPORTANT TESTS FREE OF CHARGE

Our Free Analysis includes 38 major tests of your motor and the units vital to good performance. Here is a partial list of these tests: Generator, Battery (each cell), Battery Cable, Ignition Coil, Spark Plugs, Starter, Distributor, Contact Points, Compression, Vacuum. We suggest you come *early*. The Motor Analysis is free and places you under no obligation.

Drive in Today—this Service is FREE and the Results are Absolutely Dependable

You know the boys behind this station and its service. "Al" Jensen and "Andy" Frankovitz have been serving Wilmette motorists for the past 14 years. They're courteous, eager-to-please, regular fellows who go to no end to satisfy. Over the period of their station's growth they have added new equipment, new methods

FORWARD! That's the keynote of progress. It's reflected in every activity today. It's the word of our president. "There is no going back . . . there is no standing still. We must advance."

In keeping with this idea the installation of this new motor-testing unit marks another step in the forward march of this popular Super Service Station to serve the people of this fine community more capably . . . more thoroughly.

and better products with their customer's requirements always in mind. Today their work is dependable and satisfaction is assured.

Recently "Andy" and "Al" have remodeled and rearranged their place of business to care for their growing group of customers. They have installed much new equipment to efficiently care for motoring needs. Among the well known products they sell are Goodyear Tires and Exide Batteries and they render complete service in washing and greasing. They invite you to see their station . . . to try out their many up-to-date facilities . . . to learn what they mean by service and satisfaction.

Come up and see them sometime . . . SOON!
