C. OF C. BOARD WANT CHANGES IN SINNETT BILL

Declare Act to Provide NRA
Enforcement by Illinois Offi-
cials Needs Revision

A called meeting of the board of directors of Wilmette Chamber of Commerce was held Monday to consider the Sinnett bill now before the general assembly. This is the bill sponsored by the national administration to achieve state enforcement of codes under the NRA.

In its present form the bill is said to constitute the governor as the state's chief enforcing officer, with all state and municipal employees and officials as his assistants. It is said to differ in this respect from the uniform draft submitted by Washington, which is alleged to have placed in the hands of present NRA enforcing agencies the duty of seeing that codes are not violated, and that violators are punished.

After an exhaustive discussion of the bill the directors of the Chamber decided that they could not approve the bill in its present form, believing that it would open the way to widespread graft and persecution, while not disapproving the bill in the main, the provisions mentioned were condemned in a communication to Springfield. Support of the measure will be withheld unless the objectionable features are removed, it was said.

Curls for Social Whirls

Entrancing curls, typical of the gay 1830 period, are today's smartest vogue! But the beauties of that day didn't have the skillful attention, such as is obtained here, from experienced operators.
