● Many electric refrigerators have a few of these important advantages... a few refrigerators have many of them. But only Westinghouse combines them all!

That's why Westinghouse owners have been proved to be more loyal and better-satisfied than the owners of any other make. That's why any owner will tell you — "You'll be happier with a Westinghouse!"

Come in... let us demonstrate these definite reasons for Westinghouse popularity. Terms are liberal, prices no higher than ordinary makes.

### Nature Badge Tests to Be Given May 28

### SPEAKER

Clarence E. Pickett, now in Europe investigating for the Federal government the methods used by England and Germany in caring for their stranded peoples is to make the opening address of the Midwest Institute of International Relations to be held at Northwestern university June 25—July 6.

E. Raymond Wilson, dean of the institute, announced this week that Mr. Pickett had been secured for the first public address he will make after his return to America, June 10. The subject will be "America's Refugees."

The aftermath of the World war left hundreds of thousands of people unemployed through the over-expansion of coal mining and other industries. Last year the American Friends Service committee (Quakers), of which Mr. Pickett is executive secretary, fed as many as forty thousand children daily in the soft coal areas of the United States. Because of this experience he was named by President Roosevelt to serve as chief of the section on stranded mining and industrial populations under the Department of the Interior, in the subsistence homesteads divisions.

### Field's to Sponsor Fashion Revue at Fair on May 30

One hundred mannequins, selected from the most beautiful mannequins in the country, will parade in smart summer apparel in a colorful fashion revue to be given by Marshall Field and company on Decoration Day, May 30, in the Swift theater at the World's Fair, it was announced this week following negotiations with Marshall Field and company and E. I. Dupont de Nemours company.

The show will be staged by Field's with Miss Helen Ticken of the Swift theater as production manager and the mannequins will wear among other fashions dresses of fabrics featuring Dupont rayon yarns. Two performances will be given, one at 4:30 and an evening show at 8:30, with the mannequins parading in fashions for every hour of the day to the music of Palmer Clark's orchestra.

The Swift theater will provide a dramatic setting for the revue, as the mannequins will cross bridge runways across the water from the stage to the audience. As each mannequin appears, her costume will be described by a master of ceremonies who will come from the East especially for the show.

The show on Decoration Day will be the first of a series of five or six such fashion shows given by Field's during the 1934 World's Fair. While plans for all of the shows are not completed, each will be of varying character with the possibility of a water carnival on July 4 in which mannequins will feature the newest and smartest bathing suits, beach togs, yachting clothes and other summer apparel. A children's fashion show is also tentatively planned for later in the summer.
