

'Save the Schools' Plea of New Trier Education Boards

(Continued from Page 3)

ment of the 1932 tax is in arrears and is bearing interest at the rate of one per cent per month. This means on both homes and personal property.

2. *Personal Property.* Every resident in the township is subject to some personal property tax. It is not for us to say how much that should be. If any citizen is dissatisfied with the assessment, he should still at least pay that share on account which he thinks is fair.

3. *Objections to Real Estate Taxes for 1928, 1929 and 1930.* Many property owners used attorneys or tax associations to file objections for the foregoing taxes and then did nothing further about it. These arrears are bearing penalties except on such portion as may be declared invalid. Out of self-protection such property owners should take proper action to have such objections disposed of.

4. *Objections to 1931 and 1932 Real Estate Taxes.* Many home owners objected to these taxes in the hope of getting a 15 per cent reduction on the assessed valuations of their buildings. Now that all homes and small apartment buildings in this township have been granted this reduction for the years 1931 to 1934, inclusive, realty owners should at once take steps to stop their penalties by paying all such taxes excepting the small percentage on the buildings alone which they are entitled to deduct.

5. *Realty Owners Who Have Paid in Full Taxes for 1931 or 1932 or Both.* Such property owners have been vexed at the prospect of suffering from having paid such taxes in full. The Illinois State legislature has passed a law by which all such over-payments may be deducted in subsequent years. If you paid your realty taxes in full for 1931 without benefit of the reduction and have not paid in full for 1932, you are entitled to make a deduction from the 1932 taxes. If you have paid both 1931 and 1932 taxes, you will be entitled to deductions for both years from the 1933 tax bill. And in either type of case you will be entitled to interest on the excess payment at the rate of one-half of one per cent per month for the time the taxing bodies have had the use of your excess payment money.

Must Resume Payments

It should be obvious to all parents that if they are confused by the details set forth herein, it is doubly difficult for your board of education to make calculations for the 1934 tax levy or for the 1934-1935 school year budget with any certainty that estimates will be even remotely correct. The only thing that can keep this institution on its present high educational plane is a resumption of tax payments by the citizens of the township.

In order that citizens may know that the foregoing suggestions and the request for action are trustworthy, we have secured through the New Trier Township Committee the accompanying letter from Mr. Hayden Bell, Assistant State's Attorney in charge of tax procedure for Cook County. We bespeak your careful consideration of the information therein and urgently request your cooperation on behalf of the school.

Respectfully yours,
Board of Education,
New Trier Township High school.

Baha'i Temple Will Be Lecture Theme May 27

"The Baha'i Temple and What it Stands For" is the subject which will be explained in a talk given by Mrs. Sarah Walrath of Chicago at the Sunday afternoon service held in Foundation hall, Baha'i House of Worship, Linden avenue and Sheridan road, Wilmette, at 3:30 o'clock on May 27. On Wednesday evening the 90th anniversary of the Declaration of the Bab, the youth who was the forerunner of Baha'u'llah, was publicly celebrated in Foundation hall. The Bab (literally door or gate) was noted for his great personal beauty and charm, and also for exceptional piety, obeying not only the letter but the spirit of his religion, it is explained. He later fell a victim to the fanatical fury of persecutors and his body was the target of a thousand bullets in the public square of Tabriz, Persia.

Buy Your Car Out of Income

The other day a dealer friend of ours told us of a customer who was quite surprised to learn he could buy a car other than for spot cash!

Can you imagine the shock he received when the dealer took his old car in trade as the *total* down payment on the purchase of a brand new car—with the remaining balance to be paid off at the rate of \$1.00 a day? And the saving in operating cost of the new car, as compared to the old one, will pay a good share of that sum per day. Some of these *old cars* are just regular money-eaters!!

And, folks, there is not one but several low-priced cars—1934 models—with safety glass—and all the other up-to-date things on them—that can be bought just that way—with *your old car as nearly all of the down payment and the balance to be paid for at the rate of \$1.00 a day.*

That, in fact, is our business—to enable certain purchases to be made—and paid for not out of your past savings but out of future income as you drive the car.

Our finance charges are as low as those of any national company. Your payments can be made directly over our counter, eliminating all expense of money orders, checks or drafts. And if an insurance loss to your car arises—or an extension of a few days on your payment is needed—we are so conveniently located that you can drop in personally to see us and make the necessary arrangements—not by mail, but in that far more satisfactory personal way—as one good neighbor deals with another.

Specify "Motor Acceptance" to your dealer
on your next car purchase!!

MOTOR ACCEPTANCE COMPANY

State Bank Building

Evanston

Capital and Surplus—\$425,000

Serving Evanston and the North Shore for nine years
