BOY SCOUT NEWS

SEA SCOUT
SHIP
OUILMETTE

BY JULY 4 . . .

Crew No. 3, under the leadership of D. E. Hall, mate, declared this week that their boat, a Snipe class sloop, would be christened and launched by July 4. Construction was started about three months ago, and as the work nears completion, the scouts feel confident they have a "real job."

THREE BOATS . . .

Three boats are under construction, all at different stages. Scouts are doing all the work, even sewing the sails and building the spars. The officers in charge of construction are: K. R. Borgen, Crew 1; F. Maas, Crew 2, and D. E. Hall, Crew 3.

Work on the boats may be watched every afternoon at the Sea Scout lot, Main street and Linden avenue.

SHIP YARD NEWS

Paint brushes are being slapped around the hull of the schooner Albatross in preparation for her launching next Sunday, June 24, at the Great Lakes boat yards in Chicago. Several parents of Sea Scouts of the North Shore area have been on board looking her over with an eye to seeing just what kind of vessel "Johnny" is sailing on. The comment so far has been favorable. A great deal of strenuous work has been done in the effort to make the Albatross the smartest looking yacht in this part of the country.

Cruise reservations are rolling in rapidly since many of the scouts are now starting their summer vacations from school. Quite a number of fellows of Sea Scout age are joining up, it seems, with the idea of cruising this summer. A crew of ten Sea Scout officers from Milwaukee has made reservations for late in the season and three other groups of out-of-town Sea Scouts have already signed up.

INTER-COUNCIL REGATTA

Sea Scouts of Milwaukee have challenged the North Shore area to a regatta with rowing and sailing events at Great Lakes station or some other suitable place late in the summer season. Commodore W. H. Williams has donated a silver cup for the winners of the Snipe class.

Oh, Great Scott! How Those Boys Can Eat!

Huge quantities of food are required to feed a camp of hungry boys for six weeks. Friday evening of last week, a truck loaded with three tons of staple goods left for Camp Ma-Ka-Ja-Wan. This is only a part of the food which will be used, for all meats and fresh vegetables are bought in the neighborhood of camp. In addition, approximately two tons of flour will be used by Chef Ross in preparing homemade bread this summer. Chef Ross, 'tis agreed, will be in his glory while supervising the "eats"; among his qualifications is the fact that he fed 2,500 men three meals a day for ten years in the redwood forests of California.

It Isn't Too Late to Sign for 1st Period

There is still time to register for first period of Camp Ma-Ka-Ja-Wan, or any succeeding period. Registration should be sent immediately to scout headquarters in Highland Park with the fee attached. The fee is \$12 for each period, and the railroad fare is \$5 round trip. The phone number of the scout office is Highland Park 629, and Miss Simpson or Miss Smith will be glad to answer any questions regarding camp dates and fees, it is announced.
