

PRINTING SERVICE

"Those out-of-the-ordinary kindnesses which make for understanding and mutual satisfaction between customer and firm"

From the first contact with our representatives . . . and through every production process of your job . . . you will sense the true meaning of that intangible something called "service" . . . yet few truly possess the power of interpreting its true meaning. In living it day after day and intelligently injecting it into job after job it has crystallized from a word into the corner stone of this organization.

We want to help you with your printing problems. Years of satisfactory service to many discriminating customers on the North Shore recommends us to assist you. A trained personnel and carefully functioning mechanical departments are at your service. The first step on your part is to call one of our sales representatives who will be glad to look into the solution of your printing problem with the same interest he would show were it his own and with a never failing sense of responsibility to your satisfaction.
