

ANOTHER 6000 SINCE YESTERDAY!

Think of it! Since this time yesterday 6000 NEW FORDS have been completed at the Ford factory. More than four every minute of the hour . . . every hour of the day! That's production.

But even at that astounding speed it is not fast enough to keep up with the orders which pour into Authorized Ford Dealers daily. What's the reason?

Simply this: People by the thousands come to the logical conclusion that the New Ford for 1935 offers more in reputation . . . in appearance . . . in performance . . . and in economy . . . than any other car on the market. They decide, usually after trying other cars, that the new Ford V-8 provides greater motor car value per dollar than the others.

Many people in Wilmette reach this conclusion. In a better position than most people to purchase costlier cars, they sensibly buy Fords.

Why don't you try the new Ford V-8? Drop in at our showroom. A car is ready for you to slip behind the wheel. Try it in your own way. Drive it . . . test it . . . then you'll buy it! No doubt about it!
