doll buggy and pet parade, on or about June 21.

Trustee Hoffman reported an unsanitary condition at the Village Green playground, due to a blocked sewer. The matter was referred to the committee on sewers and water for investigation.

Village Manager Platt reported on the additional cost of operating the street lighting system all night, over the present practice of operating until 1:30 a. m. only. He stated that, owing to more favorable rates than existed previously, the additional cost would be only \$1,700. Referred to committee on streets and alleys.

To Buy More Guns

The Village Manager was authorized to purchase additional guns for the police department.

Applications for reinstatement to the police department were made by C. O. Lance and William Salter. These were referred to the committee on police and fire.

A petition from the Golfmore Land company, operators of Wilmette Golf club, asked for disconnection with the Village, promising to pay up back taxes and assessments if the petition were granted. The matter was referred to the Judiciary committee.

Would Stiffen Dog Law

Dr. Martin H. Seifert, health commissioner, addressed the board on the subject of dogs, calling attention to the fact that rabies are more prevalent now than at any time since records have been kept on the subject. He stressed the importance of confining dogs guilty of biting humans, or other animals, for observation, but pointed out that many owners of dogs cannot afford the expense. He recommended that a portion of the funds derived from dog licenses be appropriated to defray this expense, where the dog has been properly licensed. Otherwise, the owner must bear the expense or the dog must be destroyed. He also advised the erection of a pound where stray dogs may be confined. The board took the matter under consideration.
