## The New FORD V-8 Convertible Sedan

The Convertible Sedan with top up . . .  
smart lines, rain-proof comfort.

**D**O YOU want all the comfort and snugness of a deluxe sedan *combined in the same car* with the open-sky freedom of a phaeton? . . . Then here is a new Ford body-type you should see immediately.

Here is an all-weather car for people who hate to drive cooped up under an immovable top when the sun is shining. The side windows, of course, can be rolled up when the top is down if there is too much breeze . . . And they are held in sturdy chromium-plated frames.

The top is of tan-colored, interlined, rubber cloth . . . There is a luggage compartment behind the rear

seat providing ample space for stowing luggage when you are touring . . . You have your choice of genuine leather or Bedford Cord seat cushions . . . Equipment is deluxe throughout including twin horns, twin tail-lights, ash trays in both front and rear compartments and a robe rail . . . In body colors you have (at no extra cost) a wide variety to choose from. And each body color can be set off by wheels of a contrasting color, if you wish.

See this new Ford V-8 Convertible Sedan today. Nothing so smart exists at anywhere near its price.

## AUTHORIZED FORD DEALERS

EVERY FORD CAR BUILT HAS THE SAME FORD V-TYPE, 8 CYLINDER ENGINE
