

COMBINES UTILITY AND BEAUTY

Work is progressing rapidly on construction of Stephen Shimonek's very complete automobile service station located on Main street at Lake avenue, Wilmette. The structure will be of Wisconsin Lannen stone which is used effectively on some of the finest residences and churches in this vicinity. It will have a Ludowici hand made tile roof.

Both in design and materials employed, this building will reflect credit upon the neighborhood which is principally residential in character. Mr. Shimonek has spared no expense to establish a building that is compact, complete in every detail, and of the best type obtainable.

Mr. Shimonek is a pioneer in the automobile service station business on the north shore. He expects to have his new station open some time in October.
