Ralph Church to Tell Young Men's Club About Affairs in Washington

Local Congressman to Address Meeting Next Tuesday

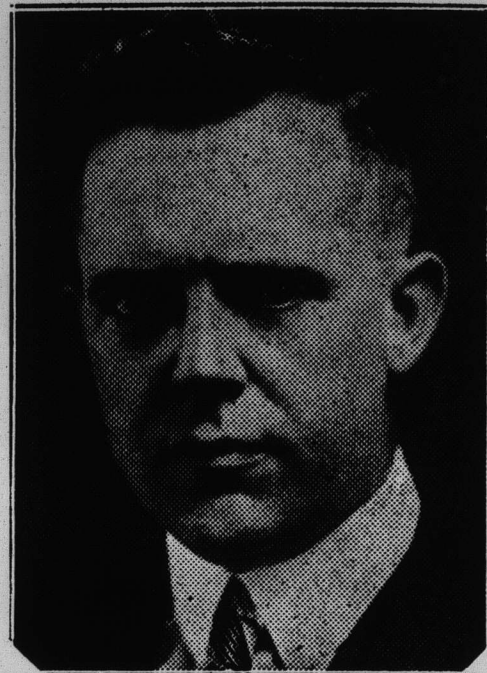

Congressman Ralph E. Church, sole Republican Representative at Washington from Cook and Lake counties, and the 10th district's own congressman, will address the members of the Tenth District Young Men's club and their friends at a meeting to be held at the Shawnee Country club Tuesday evening, October 8, at 8 o'clock. "We feel sure that this opportunity to hear at first hand what transpired during the last session of Congress will result in a record crowd," said Edwin A. Robson, of Wilmette, chairman of the club's political affairs committee, in announcing the meeting. "Members of the club, as well as many of their friends, have expressed themselves as keenly interested in hearing Congressman Church's report on recent events in Washington."

Returning to the district with a record of not having missed a single roll call during the last session, one of but eight members with a perfect record in this respect, Mr. Church was a consistent opponent of New Deal policies.

"It is interesting," said club president Erwin D. Hintzpeter of Kenilworth in commenting on the meeting, "to note that while Congressman Church was 100 per cent opposed to the present administration's policies, he nevertheless managed to secure the passage of several measures beneficial to this district, striking proof that a good Republican does not

have to be a rubber stamp in order to accomplish things with an hostile administration in power."

Among the various measures of special interest to the voters of the

Congressman Church

10th district which Mr. Church was instrumental in passing were that for reopening the Great Lakes Naval Training station, the authorization of a survey for the dredging of Wilmette harbor and the use of PWA funds in completing the work, and the final approval of the work on new post offices in Evanston and Wilmette.
