

tiful but only second degree hardy.

In the darker violet blues, *Black Wings*, *Royal Beauty*, *The Black Douglas*, *Blue Velvet* and *Sir Michael* hold sway. Pinks are well represented by *Imperial Blush*, *Noweta*, *Pink Satin*, *Thais* and *Airy Dream* with classic *Frieda Mohr* a shade darker. Purples are many and varied. *Depute Nombrot*, *Motif*, *Red Dominion*, *Itasca*, *Legend* and *Directeur Pinelle* are all ace high, with several others almost as good. Yellows of the same high degree of perfection as the foregoing are just beginning to appear on the market at high prices: *Happy Days*, *Jasmania*, *California Gold*, and *Golden Hind* among the finest. Low-priced yellows that are still good are *Phebus*, *Coronation* and *Phie d'Or*. And finally there are the blends of almost indescribably lovely colors. *Jean Cayeux*, *Rameses*, *Persia*, *Dolly Madison*, *Evolution*, *Mary Senni*, *Anne Marie Cayeux*, and *Copper Lustre* are but a few.

### Permit Issued to Construct Theater in North Evanston

A permit for the construction of a large theater at 1706-18 Central street, Evanston, was issued Tuesday to the 1700 Central Building corporation by E. M. Goodman, city building commissioner. Application for the building permit was approved by the Evanston city council Monday after two months of controversy between the building corporation, the city council and residents in the area of the proposed moving picture house.

#### Modernistic Design

Having complied with all requirements of the building ordinance, the corporation obtained the permit and preparations for construction were started this week. The theater designed by J. E. O. Pridmore, nationally famous playhouse architect, will be of modernistic design and is temporarily named "The Stadium." The exterior of the theater's lobby will have a terra cotta front and a small tower. A black marble base will be used for the exterior ticket office. A canopy will stretch out over the sidewalk.

The lobby of the theater will be of terra cotta and glass in ultra-marine blue, white and gold. The lobby will be simple, in keeping with the modernistic design. Stainless steel-trimmed mirrors will line the walls. The auditorium of the theater will be at right angles to the lobby, which will be 35 feet wide and 58 feet deep. The lobby will lead south to the foyer. The theater proper, which will be behind the stores on Central street, will extend from the foyer east to 1706 Central street. The interior of the auditorium will measure 147 by 75 feet, and it will have 1,185 seats on the first floor and 310 in the mezzanine.

#### Modernize Old Stores

New stores will be added to those already in the building which will extend from 1700 to 1720 Central street. All old stores will be modernized and the front of the entire building will be remodeled to harmonize with the modernistic design of the theater entrance.

The stores at 1700 and 1702 Central street will be remodeled. Stores west of these two are now only 24 feet deep and will be made 48 feet deep. Two of the new stores will be located east of the lobby and one west of it. Those east of the lobby will have a frontage of 15 feet each and the one on the west, 30 feet.

Original plans called for construc-

tion of a theater with a seating capacity of 1,800, with a frontage of 150 feet on Central street and 140 feet on Eastwood avenue. North Evanston residents in the vicinity of the theater protested and demanded that frontage consents be obtained from Eastwood avenue property owners because the property leased, formerly occupied by the North Shore School of Physical Development, had frontage on Eastwood. When the council enforced the ruling in favor of the residents, the corporation changed the site of the theater.

#### RETURN FROM EAST

Mr. and Mrs. W. H. King, Jr., and their daughters, Betty, Nancy, and Eleanor, and their son, Billy, 942 Tower road, have returned from a month's vacation spent at Chatham on Cape Cod.

#### HOME FROM MICHIGAN

Mr. and Mrs. Thomas S. McEwan of 1046 Dinsmore road returned late last week from a two weeks' vacation at Northport Point, Mich. On the

way, they stopped to visit their son, Tom, at Douglas Smith camp at Lake Hamlin.

#### BACK FROM VACATION

The C. H. Coppel family of 1534 Washington avenue have returned from their vacation spent at Post lake, Wis.

#### HOME FROM IOWA

"Daddy" Hood of 106 Sixth street returned to Wilmette Tuesday from his former home at Glidden, Iowa, where he spent several weeks.

# AMERICAN HOMEOWNERS SAVE THOUSANDS OF DOLLARS EVERY YEAR

TRY THIS SIMPLE MATCH TEST . . . SEE FOR YOURSELF HOW A CRANE BOILER SAVES YOU MONEY . . . . .

#### NO-MONEY-DOWN PLAN

Take an ordinary match and light it. Place the palm of your hand beside the flame. It's warm. Now place the palm of your hand over the flame. It's hot.

That explains the secret of Crane comfort and economy. Crane boilers have about 50% more heat-absorbing surface directly over the heating gases than the average boiler. Further, patented baffles direct the water over the hottest part of the boiler.

In that way more heat is taken from a given amount of fuel and carried to the rooms of your home.

That's why it takes less fuel and costs less money to heat your home with a Crane boiler.

"Our new Crane Boiler is easy to run, seems to hold the fire longer, and we don't burn as much fuel as we used to."

H. C. WEIGOLD, Mt. Lebanon, Pa.

Figure a saving like that on your yearly fuel bill and see if it isn't well worth looking into.

#### FREE Estimate

Ask any responsible heating contractor for complete information on how you can enjoy Crane comfort and save real money on fuel. He will make a survey and give a free estimate upon request. Mail coupon for full details on Crane Heating Systems.

CRANE CO., 1224 Emerson Street Evanston, Ill.

I'd like to have more facts about CRANE Boilers that save fuel money, and how I can get one put in on the no-money-down plan. I understand that this inquiry places me under no obligation whatever.

Name.....

Address.....

City.....State.....

## DO YOUR HEATING DOLLARS GO UP IN SMOKE?

There's lots of heat in the fuel you buy. But whether it is carried to the rooms in your home or wasted on the way depends upon the heating system.

And as long as you're paying for the heat why not get plenty of it?

In fact you'll probably save enough on your fuel bills to pay for a new Crane Boiler and have some left. It happens all the time, Crane owners tell us!

#### EASY TERMS—

#### NO MONEY DOWN

The Crane Finance Plan . . . no money down and three years to pay, government rates . . . applies not only to a new Crane Boiler but to an entire new Crane Heating System.

Look into it now. Bring Crane comfort and economy into your home and watch your boiler pay for itself.
