4% Will Not Last!

AS INSURANCE COMPANY CORRESPONDENTS with direct access to unlimited funds to invest in first mortgages on good improved properties we urge you to take advantage of the low interest rates now available and file your applications for loans before other forms of investment with higher yields become more attractive to lenders.

Until rates advance, we will be pleased to forward applications to our principals for conventional loans at 4% interest to be disbursed and serviced by our Evanston office.

A long term loan (without extra servicing charge) up to 65% of conservative value with small monthly payments for 12 to 20 years and an option to prepay without any premium during the first five years may suit your need. We make them.

Just now we have a special inquiry for FHA loans insured up to 80% of value. These we originate and service as correspondents of an Approved Mortgagee under the National Housing Act.

We do a mortgage business exclusively, and we will be glad to answer inquiries for loans on residences, apartments and business properties, as well as FHA Loans.
