

Relief Load of Township Rises; Jump "Seasonal"

The relief load in New Trier township had reached 100 cases at the close of January, an increase of 20 for the month, according to reports submitted by Director Seymour H. Olmsted, at a meeting of the New Trier Township relief advisory committee, at the township offices in the village hall, Winnetka, last week.

Mr. Olmsted explained that during the past month a number of cases had gone off relief and new ones admitted, making a net increase of 20, which, he said, is only seasonal, and may be expected up to March 1.

This is the time of the year, he said when there are more employables on the list than there were earlier in the season. During January, ten of the employables, who had been on relief were given work on WPA projects.

Still Enrolled

There are still a number of such men enrolled on relief. Generally speaking, they are seasonal workers who, during the summer, do not earn sufficient money to carry them through the winter months. Anyone needing help at this time, particularly gardeners, are requested to apply to Township relief headquarters.

On recommendation of the advisory committee, the relief food budget was established on a parity with that of Chicago, which, heretofore, has been about 9 percent less.

The session was also devoted to hearing reports and developing various activities.

Public Schools to Close for Lincoln's Birthday

Public schools of the villages of New Trier township as well as the high school will be closed on Friday, February 12, in observance of the birthday of Abraham Lincoln. The schools will remain open, it was announced on Washington's birthday, February 22.

Northwestern to Use Local Summer School

Use of the summer session of New Trier High school in demonstration classes by the school of education at Northwestern university, has been approved by the board of education, it was announced to the members of the faculty recently by Superintendent Matthew P. Gaffney.

While plans have not yet been completed, Mr. Gaffney declared, the plan as at present outlined indicates that specialists in various subject matter fields will be brought to Northwestern this summer to give courses in the teaching of their particular subjects. Each of these instructors will also teach one class of high school people at New Trier to demonstrate the ideas discussed in the class hour.

The plan, Mr. Gaffney added, will be worked out in a manner that will not reduce the number of New Trier teachers who will teach in summer school. For some years the summer session at the school has been operated on a tuition basis.

Mardi Gras Will Be Annual Ice Feature

At its monthly meeting last Tuesday, the Glencoe Playground committee decided that a Mardi Gras celebration should be made a feature of the annual ice carnival, which will this year be held on the afternoon and evening of Saturday, February 20, at the north rink. Events previously scheduled prevented an earlier date.

While the program is not yet completed, it was announced that the children's racing events will be held in the afternoon. The evening will be devoted to adult races, exhibition figure skating and the Mardi Gras, which is planned to be a colorful and highly entertaining event.

Prizes have been provided for the winners in all race events, as well as for winning costumes in the Mardi Gras festival.
