Invites Music Lovers to Hear Record Program

A recording of the fifth concerto of Beethoven, known as the Emperor concerto, will be included by Dudley K. French in a concert to be played Ash Wednesday night, February 10, at his home, 503 Hawthorn lane, Winnetka. This concerto selected from the seventeenth program of the Chicago Symphony orchestra, was the last written by that composer and is considered the apex of concertos. The remainder of Mr. French's concert cannot be planned until the return of Frederick Stock, as it will be based on his selections for concerts of the near future.

May Buy Two-Way Radio for Police Squad Cars

At a recent meeting the Glencoe Village board again discussed the proposition to purchase a two-way radio system for the police squad cars. Village Manager George R. Young was instructed to investigate the different systems available, prepare specifications, get bids from the manufacturers or their agents, and report to the board. The installation of such equipment will place the police department on an equal footing with other progressive municipalities.

Non-Political Education Board Urged for State

Establishment of a state board of education in Illinois has been advocated by Prof. Eugene S. Lawler of the school of education, Northwestern university, as the best method of divorcing education from partisan spoils politics.

He urged passage of a bill to be introduced in the legislature providing for the establishment of a state board of education which would serve as an advisory and planning body to the State Supervisor of Public Instruction.

Approved By Commission

Professor Lawler served on the advisory committee of Governor Horner's Educational commission which undertook a complete study of the state educational situation. A recommendation for a state board of education was made by the commission.

Professor Lawler pointed out that Illinois is one of five states that does not possess a state board of education. A recent survey conducted by Prof. Lawler revealed that superintendents and other officials in states possessing boards of education were unanimous in their approval of the proposed Illinois board.

The board, as proposed by the commission, will consist of nine non-salaried, non-partisan lay members, one member to be appointed each year and each member to serve nine years. The appointments are to be made by the governor and confirmed by the senate.

Cites Three Reasons

Professor Lawler cited three reasons why a state board of education would prove beneficial to Illinois. They are:

1. The board would put the employment of the staff in the state department of education on a more professional basis and tend to take the department out of partisan spoils politics.

2. By virtue of its professional staff and the position of its members, it would constitute a continuous planning body for education in the state whose advice would be welcomed and respected by the legislature.

3. The board could have delegated to it certain discretionary powers with regard to the administration of education, such as the formulation of the rules for transportation of children, minimum standards for school building, and for the educational program.

Would Plan System

"There is no organization in the state at the present time which can plan for education in an authoritative way," Prof. Lawler said. "A state board by virtue of its membership of non-partisan members and its professional staff would provide an excellent opportunity for planning an educational system."

"The proposed state board would leave the powers of local boards as they are. There is no desire to interfere with local government. Yet the state board would be in a position to give advice and propose plans to these local bodies."

"There are many regions in the state not carrying on a satisfactory educational program. Some phases of education are being inefficiently administered. A state board would be of great assistance to these areas."

Congressman Church Is on Special Committee

Congressman Ralph E. Church, 10th District, Illinois (north shore), has been appointed by Minority Floor Leader Bertrand H. Snell, of New York, to serve on the Republican Consent Calendar committee.

It is the duty of this unofficial committee to study all bills placed on the Consent Calendar and to express the Minority opinion when each is called up for passage by the House under the unanimous consent rule.
