

'Mary Magdalene' to Give Program at Sunday Club

The New Trier Sunday Evening club offers a program appropriate to the Lenten season on Palm Sunday when Miss Marie Mayer, memorable Mary Magdalene of the Oberammergau Passion Play, will present "The Story of the Passion Play" in pictures.

Marie Mayer is the only member of the masterful cast of the glorious Oberammergau Passion Play ever to lecture in the United States. She is acclaimed by the press of the world as the "greatest Mary Magdalene that the play has ever known." The noted actress and lecturer is now an American citizen.

Season Closes March 27

Patrons of the New Trier Sunday Evening club are again reminded that the season will come to a close with program on Saturday evening, March 27, (supplanting the customary Sunday program when the eminent world traveler and lecturer, Burton Holmes, will make his annual appearance before the club.

It is the hope of President W. Frank McClure and his executive board, that this lecture will shatter the season's attendance record. The date has been changed from Sunday as not to interfere with Easter observances in the various churches.

Burton Holmes will lecture on "Old Mexico," illustrating his talk with motion pictures. A modest admission fee will be charged in an endeavor to make the club's deficit for the current year. This admission fee will not, however, apply to members of the club who have made the year-pledges, it is explained.

DIRECTS CHOIR

The senior choir and soloists of the Wilmette Congregational church, under the direction of Emily Roberts, (above) will present Gounod's "Messe Solennelle" in a candle-light choral service, Maundy Thursday, March 25 at 7:45 p.m. This inspired devotional music will serve as a prelude to the service of meditation and worship which follows at 8 o'clock. The Rev. J. G. Hindley will conduct the service.

Mrs. Charles R. Mack of 707 Central avenue entertained the members of her bridge club at luncheon Tuesday.

March DRUG values!

John W. Seyler

It's Never Been Opened,
But it has passed the age limit.
So we throw it away.
Your prescription must be mixed from fresh, potent chemicals.

We keep constant watch on the date we received every chemical and drug on our laboratory shelves. When a chemical passes its age of utmost efficiency, out it goes. It costs us money, but we literally have lives dependent on us. Fresh drugs, skilled professional personnel, and a real pride in our work make our prescription service second to none.
