Baha'i Temple Exterior to Be Completed Soon

(Continued from Page 5)

relationships, and a delegate to the recent Peace Conference in South America, who afterwards during her stay in South American countries visited as many as 21 cities and localities in the interest of peace.

Discuss Many Subjects

Other topics considered by the convention delegates included the movement's national teaching programs, summer schools, teaching and training of children, and the report of the national secretary and treasurer.

After this period of consultation came an electrifying cablegram from the Guardian of the Faith at Haifa, Palestine, which actually initiates procedure with plans for the completion of the entire outside ornamentation of the beautiful Baha'i House of Worship in Wilmette which will most appropriately commemorate the 100th anniversary of the declaration of the Faith by 'Ali Muhammed, "the Bab," in 1844.

When this great project is completed, by several stages, before 1944, the whole structure, gardens and Temple will stand as a majestic unit, above the surrounding grounds, a "Symbol of the elevation of the Word of God."

Voluntary Contribution

All construction now completed, and the remaining expenditure of approximately \$275,000 for the exterior of the Temple alone, will represent the sacrificial contributions of men and women throughout America and from every corner of the world and every race and nationality, who voluntarily send gifts to this building fund. The structure is slowly being erected and completed as funds are available, no unit being begun until the necessary funds for its completion are in hand.

The nine gardens which stand before each of the nine portals, with their bronze or other fine metal doors, will, when built, have become one garden encircled with a handsome containing wall, inclusive, not exclusive, with its several entrances welcoming all to walk in its paths into the Universal House of Worship, in unity and in peace.
