

## Twenty Scholarships Awarded to Junior Students at N. C. E.

Twenty young women in the junior class at the National College of Education in Evanston have received honorary scholarships for the coming year in recognition of the excellence of their college work, it was announced by Miss Edna Dean Baker, president of the college, at the 51st commencement exercises last week.

Two of the scholarships given by the alumnae association in honor of the founders of the college, the Elizabeth Harrison and Mrs. John N. Crouse awards, with the Eva Grace Long Scholarship compose the three highest honors conferred by the college.

Miss Mary Ruth Allis of Evansville, Ind., was awarded the Elizabeth Harrison Scholarship, while Miss Margaret Bigler of Western Springs, Ill., was given the Mrs. John N. Crouse Scholarship, both scholarships being awarded on the basis of scholastic excellence.

Winner of the Eva Grace Long Scholarship given for "character exemplifying the qualities of graciousness, sincerity, tact, enthusiasm, spirit of social service and loving consideration," was Miss Charlotte Brown, daughter of Mrs. Palmer Brown, 617 Milburn street, Evanston.

Miss Carol Benson of Glen Ellyn was awarded the Helen Grinnell Mears Scholarship for outstanding musical ability, and Miss Catherine Freeman of Palestine, Ill., was given the Jean Carpenter Arnold scholarship for all-around scholastic ability.

Among the 15 members of the junior class who were given honorary scholarships for excellence in practice teaching were a number of north shore students: from Evanston, Miss Marion Burkhardt, daughter of Mrs. H. Burkhardt, 826½ Washington street, Miss Jeanne Payne, daughter of Mr. and Mrs. C. E. Payne, 232 Elmwood avenue, and Miss Mariana McCabe, daughter of Mr. and Mrs. J. N. McCabe, 2315 Forestview road; from Wilmette, Miss Eleanor Ricks, 1236 Forest avenue; and from Highland Park, Miss Elizabeth Hopkins, daughter of Mr. and Mrs. G. C. Hopkins, 1031 North St. Johns avenue.

## Gives Lecture on Christian Science

According to Prof. Herman S. Hering, who is a member of the Board of Lectureship of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass., the removal of abnormal conditions, structural, organic, or functional, has so frequently resulted from the study and application of Christian Science, that there is no longer any question regarding the fact that these changes can be brought about through divinely mental means, through spiritual prayer, as the Bible teaches.

An understanding of Christian Science, he said, can be gained only through faithful, thorough study and intelligent, scientific and persistent application of the teachings of Mary Baker Eddy. He explained how Christian Science with its "Key to the Scriptures" enables the student to grasp, appreciate and understand the teachings of the Bible, by giving the spiritual sense of these teachings.

Professor Hering spoke of his acquaintance and association with Mrs. Eddy, and of his observance of her as a master metaphysician, a genuine Christian, having the highest, purest sense of God, and having the deepest affection for mankind. When it was revealed to Mrs. Eddy, he said, that

God is infinite Mind, she discerned that word to mean infinite consciousness, infinite intelligence, infinite understanding.

Throughout his lecture, which was given under the auspices of First Church of Christ, Scientist, of Glen-coe on Tuesday, June 15, Professor Hering quoted frequently from the Bible and the Christian Science textbook, "Science and Health with Key to the Scriptures," to illustrate important points in his lecture.

## CHRISTIAN SCIENCE SERVICES

"Is the Universe, Including Man, Evolved by Atomic Force?" will be the subject at the services in First Church of Christ, Scientist, in Wilmette, Sunday morning, June 20, at 11 o'clock, held in the edifice at 1003 Central avenue. Sunday school convenes at 9:45 o'clock.

## WINS SCHOLARSHIPS

Miss Janet Notley, who attended Horace Mann and Skokie schools in Winnetka, and is now living in Ohio, recently won a scholarship in singing and another scholarship in drawing at Immaculata High school in Chicago.
