and eighth grades for all "east side" students.

The John A. Logan school, Central and Prairie avenues, serves children in kindergarten and up through the fourth grade. The Logan school district is bounded by Lake avenue, Fifteenth street, Isabella street, and the North Western line tracks.

The Arthur H. Howard school, Spencer avenue and Seventeenth street, includes all grades, and, except for primary children who attend the Logan or the Higherest schools, accommodates all students living west of the North Western tracks.

The Higherest school, Illinois road and Twenty-third street, will this year have kindergarten and first, second, and third grades, it was announced. This building will serve pupils in the far western section of the village. Children in the Higherest district above the third grade will attend the Howard school.

Bus Service

Bus service, which was established last year by the board of education for the benefit of the children in the far western part of the community, including the Indian Hill estates and the Kenilworth gardens, and along the Skokie Valley line, will be resumed this year on the first day of school. Slight changes in routing and schedule may be made to accommodate individuals, it was added, but the changes will be made after classes commence.

Children living in the far northwestern corner of the community live outside the Wilmette school district, it was explained, and will attend the Avoca school, 2045 Ashland avenue, where Mrs. Marie Murphy is principal. Classes there were scheduled to start this week.

Underpass Ready

Serving the Kenilworth school district is the Joseph Sears building at Cumberland avenue between Cumnor and Abbottsford roads. For the benefit of the children who live on the west side of the village, the underpass below the tracks of the North Shore and North Western lines and Green Bay road is to be opened about the time of beginning of classes.

The west end of the underpass is located on Green Bay road near the Wayland avenue intersection, and the east end in the school yard.
